- **Target Pests:** Ants and Other Labelled Crawling Insects
- **Area of Use:** Home and Garden
- **Primary Function:** Crawling Insect Control
- **Application:** Targeted Powder Treatment
- **Dilution:** Not Required
- **Pack Quantity:** 1 x 300g

Applications

Area of Use: Areas affected by ants and crawling insects, including cracks, crevices, insect trails and suitable structural voids.

How to Use: Apply a light dusting to insect hiding places and travel routes using the puffer bottle or suitable powder duster, following the product label. Keep away from food, children and pets.

Safety: Keep children and pets away during application and follow the label's re-entry instructions. Avoid inhaling dust and prevent contamination of food, drinking water, ponds and aquatic environments. Do not apply directly to animals or food preparation surfaces. **Always read the label and use biocides safely.**
