SC Johnson Deb - Relax Foam Wash - 1L

Variant code: 10-RLX1L

SC Johnson Deb Refresh Relax FOAM is a **luxurious foam hand wash** designed for professional washroom environments where effective cleansing and user comfort are important. Manufactured by SC Johnson Professional, this foam hand wash combines skin conditioning ingredients with a relaxing fragrance profile to enhance the everyday hand washing experience in offices and public facilities.

The formulation contains **Glycerin and Panthenol skin moisturisers** to help improve skin hydration and prevent dryness caused by frequent hand washing. Its **soap-free formulation with a skin friendly pH** helps maintain the skin's natural acid mantle, supporting the natural bacteria balance of the skin while providing effective cleansing performance.

Refresh Relax FOAM features a **relaxing fragrance containing natural essential oils**, developed with oriental musk notes combined with tangerine, bergamot, floral undertones and warm clove and cinnamon accents. The **silky-smooth foam texture** delivers a comfortable washing experience while rinsing quickly and cleanly from hands and sinks without leaving residue behind.

The foam dispensing format supports efficient washroom operation by reducing product and water consumption compared to traditional lotion soaps. Only one dose is required for effective cleansing, helping provide more washes per cartridge while reducing associated water and energy use. Supplied in a hygienic 1L cartridge format, the product is suitable for high-traffic professional washroom facilities.
