Febreze Extra Strength - 500ml

Variant code: 06-652

Febreze Extra Strength Fabric Refresher is a powerful **extra-strength fabric refresher** designed to eliminate stubborn odours trapped in fabrics while leaving behind a pleasant, long-lasting fresh fragrance. Its specialist odour-fighting formulation helps tackle unwanted smells on **upholstery, curtains, carpets, bedding and other hard-to-wash fabrics**, restoring freshness between regular cleaning and washing routines.

Formulated with **odour-eliminating technology**, this effective fabric spray works to neutralise unpleasant smells rather than simply covering them with perfume. Its **extra-strength odour removal action** is particularly useful for refreshing fabrics affected by everyday household smells, including cooking odours, stale air and lingering fabric odours. The refreshing fragrance helps create a cleaner-smelling, more welcoming indoor environment.

Supplied in a convenient **500ml trigger spray bottle**, the ready-to-use formulation requires no dilution or preparation. Simply spray lightly onto compatible fabrics and allow them to dry naturally. Ideal for **homes, offices, hotels, guest rooms and other indoor environments**, it provides a practical solution for maintaining fabric freshness without frequent laundering.

Product Features

- **Extra-strength odour removal** targets stubborn unpleasant smells trapped in fabrics.
- **Odour-eliminating technology** helps neutralise unwanted smells rather than simply masking them.
- **Long-lasting freshness** leaves fabrics with a pleasant, clean fragrance.
- **Suitable for upholstery** refreshes fabric-covered furniture and soft furnishings.
- **Ideal for curtains and carpets** helps eliminate lingering fabric odours.
- **Versatile fabric applications** suitable for bedding, cushions and other compatible textiles.
- **Ready-to-use formulation** requires no dilution or mixing.

and Soft Furnishings
- **Application Method:** Manual Trigger Spray
- **Dilution:** None Required
- **Intended Use:** Fabric Refreshing and Odour Control

Applications

Area of Use: Ideal for **homes, hotels, guest rooms, offices, reception areas, communal spaces and hospitality environments**. Suitable for refreshing **upholstery, curtains, carpets, cushions, bedding and other compatible hard-to-wash fabrics** affected by unpleasant odours.

How to Use: Turn the spray nozzle to the open position and apply using a **gentle sweeping motion**, lightly misting the fabric until slightly damp. Allow the treated material to **air dry completely** before use. Repeat as required to maintain freshness. Avoid oversaturating fabrics, as a light, even application is sufficient for effective odour control.

Application Considerations: Suitable for most compatible fabrics, but always **test on a small, inconspicuous area** before widespread application. Do not use on **silk, suede, leather or other water-sensitive materials** that may develop water spots. Avoid spraying directly onto electrical equipment, polished furniture or surfaces unsuitable for water-based products. This product is designed for **odour elimination and fabric refreshing**, not stain removal or disinfection.

Safety: Use in adequately ventilated areas and avoid spraying directly towards the face or eyes. Keep out of reach of children and prevent accidental ingestion. Avoid excessive application and allow treated fabrics to dry before prolonged contact. Keep the bottle securely closed when not in use and store in a cool, dry location. Follow the product label and recommended handling instructions.

Property	Value
