Eliminator High Performance Disinfectant Wipes - Dispenser Refill Bag of 1000

Variant code: 02-650

Eliminator High Performance Disinfectant Wipes are professional-grade ready-to-use wipes designed to provide fast, effective cleaning and disinfection of hard surfaces in healthcare, education, commercial and food preparation environments. Supplied in a convenient **dispenser refill bag containing 1,000 wipes**, these high-capacity refills are ideal for replenishing compatible dispensing systems while helping to minimise packaging waste and reduce operating costs.

Independently tested to **EN1276, EN13727, EN13697, EN14476, EN1650 and EN14476**, Eliminator Wipes provide broad-spectrum protection against bacteria, fungi and viruses, making them suitable for routine hygiene and infection control procedures. The advanced formulation is safe for use on **food preparation surfaces and food handling equipment immediately after application**, as the wipes have extremely low oral toxicity and require no rinsing before contact with food.

Designed for busy professional environments, the dispenser refill bag provides an economical solution for maintaining continuous access to high-performance disinfectant wipes. Suitable for healthcare facilities, catering operations, schools and commercial premises, Eliminator High Performance Disinfectant Wipes help deliver reliable hygiene while supporting efficient workplace cleaning procedures.

Product Features

- High performance disinfectant wipes
- Dispenser refill bag containing 1,000 wipes
