Evans Florazol - Concentrated Deodoriser - Bouquet - Case of 4x1L

Variant code: 06-222/B

Evans Florazol Bouquet is a powerful **concentrated deodoriser** developed by Evans Vanodine for controlling and overcoming persistent malodours in professional environments. Its highly concentrated and strongly perfumed formulation is designed to neutralise unpleasant odours quickly while leaving a fresh and long-lasting bouquet fragrance.

Particularly effective in environments such as **care homes, hospitals and washrooms**, it is ideal for areas where odours associated with incontinence, tobacco smoke or organic contamination require reliable treatment. The versatile formulation can be used through an **atomiser or spray system** as an effective alternative to aerosol air fresheners, providing controlled and economical application.

Florazol is also suitable for use in the solution tanks of **hot water extraction machines**, helping combat odours such as urine, faeces and tobacco during carpet cleaning operations. Its concentrated formulation supports low dosage usage while maintaining effective deodorising performance.

Product Features

- **Highly concentrated deodoriser** for professional environments
- Fresh **Bouquet fragrance** for long-lasting freshness
- Helps neutralise strong and persistent malodours
- Suitable for use in **washrooms, care homes and hospitals**
- Effective alternative to aerosol air fresheners
- Compatible with **atomisers, sprays and extraction machines**
- Suitable for use during carpet cleaning operations

Product Benefits

- Quickly overcomes unpleasant and persistent odours

Tel: 01626 355177
Email: info@aukhygiene.com

- Helps maintain fresh and pleasant indoor environments
- Suitable for hygiene-sensitive and high-care environments
- Supports efficient odour management during carpet cleaning
- Reduces need for aerosol-based air fresheners
- Provides economical usage through concentrated formulation
- Improves environmental freshness in high-traffic areas

Technical Characteristics

- Dilute according to **manufacturer guidance**
- Suitable for spray, atomiser and extraction machine use
- Effective against odours including urine, faeces and tobacco smoke
- Concentrated formulation for controlled and economical dosing
- Suitable for use on carpets and within room deodorising routines
- Store in a cool, dry environment away from direct sunlight
- Follow all safety and handling instructions during use

Applications

The **Evans Florazol Bouquet** is suitable for use in **washrooms, healthcare environments, care homes, hotels, public buildings and commercial cleaning operations** where odour control is essential. It is ideal for overcoming persistent malodours in carpets, soft furnishings and enclosed spaces, particularly in environments requiring regular deodorising and hygiene maintenance. Its compatibility with extraction cleaning equipment makes it especially useful for professional carpet and upholstery cleaning applications.

Property	Value
