Rentokil Insectrol Moth Killer Red Aerosol - 250ml

Variant code: 06-PS137

Rentokil Insectrol Red Moth Killer Aerosol - 250ml is a **fast-acting insecticidal spray** designed to kill moths and other flying insects in the home. Effective against **moths, flies and wasps**, it provides a convenient solution for controlling unwanted insect activity in indoor environments.

The **ready-to-use aerosol formula** delivers a targeted spray into the air, helping control flying insects quickly and effectively. Designed for **airborne insect treatment**, it is suitable for use in rooms where moths and other listed pests are present.

Supplied in a convenient **250ml aerosol can**, this insect killer is easy to store and use when required. Unlike surface-treatment insecticides, **Insectrol Red should be sprayed into the air rather than directly onto carpets, clothing or fabrics**.

Product Features

- **Fast-acting insecticidal spray** for flying insects.
- **Kills moths, flies and wasps**.
- **Airborne application** for room treatment.
- **Ready-to-use aerosol** requires no preparation.
- **Convenient spray format** for quick application.
- **250ml can** for household insect control.

Product Benefits

- **Rapid insect control** helps tackle flying pests.
- **Effective moth treatment** supports household pest management.
- **Versatile action** against other listed flying insects.
- **Easy aerosol application** simplifies treatment.
- **No mixing required** for convenient use.
- **Compact container** allows practical storage.
