Rentokil Insectrol Powder - 150g

Variant code: 06-PS128

Rentokil Insectrol Insect Killer Powder - 150g is a **fast-acting insecticidal powder** designed to kill and control a wide range of flying and crawling insects in and around the home. Effective against **fleas, ants, cockroaches, wasps, woodlice and other insects**, it provides a practical solution for managing common household pest problems.

The **ready-to-use powder formulation** allows targeted treatment of areas where insects are present, including cracks, crevices, carpets and other suitable surfaces. Its convenient application helps reach insect activity in locations that may be difficult to treat with conventional liquid sprays.

Supplied in a **150g container**, this versatile insect killer is suitable for household pest control and general property maintenance. Always follow the product label for approved treatment areas, application quantities and safety precautions.
