Microburst 3000 Compatible Air Freshener Aerosol Refill - Exotic Garden - 100ml

Variant code: 06-697

Compatible Rubbermaid Microburst 3000 Refills - 100ml Aerosol - Exotic Garden provide a convenient, long-lasting air freshening solution for compatible automatic micro aerosol dispensers. Featuring an appealing **Exotic Garden floral fragrance**, this compact aerosol refill is designed to release controlled bursts of perfume at programmed intervals, helping maintain a pleasant atmosphere in busy commercial and domestic environments. Its rich fragrance character combines exotic floral notes with a fresh, welcoming scent, making it particularly suitable for washrooms, offices, reception areas and hospitality premises.

The **Exotic Garden fragrance** delivers a distinctive floral experience, with the supplied fragrance description highlighting notes of **jasmine, tuberose and freesia**. Designed for automatic fragrance dispensing, the refill releases a fine mist that helps distribute perfume into the surrounding air. Its compact format is particularly useful in environments where space is limited, while the automatic dispensing system provides regular fragrance delivery without the need for frequent manual spraying.

Supplied in a convenient **100ml aerosol can**, the refill is designed to deliver **up to 3,000 sprays** under suitable operating conditions. Depending on the compatible dispenser and its programmed settings, this can provide extended fragrance coverage between replacements. The smaller aerosol format requires less storage space than many conventional air freshener cans and supports efficient stock management. Suitable for **commercial washrooms, hotels, offices, care facilities, reception areas and other indoor environments**, it provides a practical solution for maintaining a consistently fresh and welcoming atmosphere.

Product Features

- **Exotic Garden fragrance** delivers a pleasant, rich floral scent for indoor air freshening.

- **Capacity:** 100ml
- **Product Format:** Pressurised Aerosol Refill
- **Physical State:** Aerosol
- **Colour:** White
- **Odour:** Characteristic
- **Flammability:** Flammable
- **Water Solubility:** Insoluble
- **Dispensing Capacity:** Up to 3,000 Sprays
- **Dispensing Method:** Automatic Timed Aerosol Release
- **Dispenser Compatibility:** Compatible Micro Aerosol Air Freshener Dispensers
- **Application:** Indoor Air Freshening
- **Preparation:** Ready to Use
- **Packaging:** Pressurised Aerosol Can
- **Hazard Classification:** Extremely Flammable Aerosol; Causes Serious Eye Irritation
- **Intended Use:** Professional Automatic Air Freshening

Applications

Area of Use: Ideal for **commercial washrooms, toilets, offices, hotels, restaurants, reception areas, care facilities, leisure centres and communal indoor spaces**. The floral fragrance is particularly suitable for environments where a pleasant and consistent scent helps create a welcoming atmosphere. The compact aerosol format is designed for compatible automatic dispensers installed in appropriate indoor locations.

How to Use: Check that the refill is suitable for the intended **automatic micro aerosol dispenser** before installation. Open the dispenser according to its operating instructions and remove the empty aerosol can. Insert the replacement refill, ensuring that the aerosol actuator is correctly positioned within the dispensing mechanism. Close and secure the dispenser, then programme the desired spray intervals using the dispenser controls. Follow the dispenser manufacturer's instructions for testing, maintenance and replacement. The number of days of fragrance coverage depends on the programmed spray frequency.

Application Considerations: Designed for **automatic air freshening rather than direct manual spraying**. Check dispenser compatibility before use, particularly where the refill is intended for equipment manufactured by another brand.

Position the dispenser in a suitable, well-ventilated location away from food preparation areas, exposed flames and sensitive surfaces. Avoid directing the spray towards people, electrical equipment or furnishings. Fragrance intensity and refill life may vary according to room size, ventilation, dispenser settings and environmental conditions.

Safety: Danger. Extremely flammable aerosol. Pressurised container may burst if heated. The formulation also **causes serious eye irritation** and contains fragrance ingredients that may produce an allergic reaction in susceptible individuals. Keep away from heat, sparks, open flames and other ignition sources. Do not smoke during handling or installation. Do not pierce or burn the container, even after use. Protect from direct sunlight and temperatures exceeding **50°C**. Avoid unnecessary inhalation of concentrated spray and ensure adequate ventilation. Keep out of reach of children and dispose of empty aerosol containers according to local regulations. Always follow the product label and dispenser manufacturer's instructions.
