Nova Frost Chewing Gum Remover - Chewing Gum Freezer Spray - 12 x 500ml

Variant code: 06-758

Nova Frost Chewing Gum Freezer Spray is a professional **chewing gum remover spray** designed to remove stubborn chewing gum from **carpets, floors, upholstery, clothing and most other compatible surfaces**. Using a powerful freezing action, the aerosol rapidly hardens chewing gum, making it brittle and easier to remove without the need for excessive scrubbing or harsh cleaning chemicals.

Formulated with a **refrigerant liquid** contained in an aerosol can, the product releases a freezing gas when sprayed directly onto chewing gum. This rapid cooling action causes the gum to lose its flexibility and adhesion, allowing it to be broken away from the affected surface using a **bone scraper, spoon handle or similar blunt instrument**. The targeted application helps minimise disturbance to surrounding materials and provides an efficient solution for removing unwanted chewing gum deposits.

Supplied in a convenient **case of 12 x 500ml aerosol cans**, this specialist chewing gum freezer spray is ideal for **professional cleaners, facilities management teams, hospitality businesses, schools and commercial premises**. Its simple spray-and-scrape application makes it particularly useful for routine cleaning and maintenance in high-traffic environments where chewing gum contamination can be a persistent problem.

Product Features

- **Rapid freezing action** hardens chewing gum, making it brittle and easier to remove.
- **Refrigerant aerosol formulation** delivers targeted freezing directly onto chewing gum deposits.
- **Effective adhesion reduction** helps release gum from compatible surfaces.
- **Versatile surface compatibility** suitable for carpets, floors, upholstery and clothing.
- **Quick application** typically requires

Tel: 01626 355177
Email: info@aukhygiene.com

approximately 5 seconds of spraying per treatment.
- **Precision application tube** directs the freezing spray towards affected areas.
- **Simple mechanical removal** allows hardened gum to be scraped away using a blunt instrument.
- **Ready-to-use aerosol** requires no dilution or preparation.
- **Animal-free ingredients** contains no animal-derived components.
- **Case of 12 x 500ml** provides a practical bulk supply for professional cleaning operations.

Product Benefits

- **Efficient chewing gum removal** helps remove stubborn deposits from carpets, flooring and furnishings.
- **Reduced cleaning effort** makes gum easier to remove by freezing rather than relying on prolonged scrubbing.
- **Targeted treatment** concentrates the freezing action on affected areas.
- **Versatile cleaning applications** supports maintenance across a wide range of compatible surfaces.
- **Time-saving operation** provides rapid treatment for chewing gum contamination.
- **Improved surface appearance** helps maintain clean, presentable commercial and public environments.
- **Convenient bulk packaging** supports regular cleaning requirements across multiple locations.

Technical Characteristics

- **Product Range:** Nova Frost
- **Product Type:** Chewing Gum Freezer Spray
- **Product Format:** Refrigerant Aerosol
- **Pack Size:** 12 x 500ml
- **Total Nominal Capacity:** 6L
- **Physical State:** Aerosol
- **Colour:** Colourless
- **Solubility:** Insoluble in Water
- **Active Freezing Component:** Liquefied Petroleum Gases
- **Cleaning Action:** Rapid Freezing and Mechanical Removal
- **Suitable Surfaces:** Compatible Carpets, Floors, Upholstery, Clothing and Other Surfaces

- **Application Method:** Aerosol Spray with Directional Tube
- **Typical Spray Duration:** Approximately 5 Seconds
- **Application Distance:** Approximately 3 Inches (7.5cm)
- **Dilution:** None Required
- **Hazard Classification:** Extremely Flammable Aerosol
- **Shelf Life:** 24 Months When Stored as Recommended
- **Recommended Use After Opening:** Within 6 Months
- **Animal-Derived Ingredients:** None
- **Intended Use:** Professional Chewing Gum Removal

Applications

Area of Use: Ideal for **schools, colleges, hotels, restaurants, offices, shopping centres, transport facilities, hospitals, leisure centres and commercial buildings**. Suitable for removing chewing gum from **carpets, flooring, upholstery, clothing and other compatible surfaces** where unwanted gum deposits require targeted treatment.

How to Use: First remove any loose chewing gum using a **bone scraper or suitable blunt instrument**. Insert the supplied plastic application tube into the aerosol nozzle. Position the opposite end approximately **3 inches (7.5cm)** from the remaining gum and spray for approximately **5 seconds**. Immediately rub or scrape the frozen gum vigorously using a bone scraper, spoon handle or similar blunt instrument. Collect the released gum in a suitable waste receptacle and repeat the process if necessary.

Application Considerations: Always test the product on a small, inconspicuous area before treating delicate fabrics, carpets or sensitive finishes. Use a blunt scraping tool to minimise the risk of damaging the underlying material. Store in **cool conditions away from direct heat and sunlight**, avoiding extreme temperatures and freezing conditions. Keep the cap securely fitted after use. The product has a **24-month shelf life** when stored correctly and should be used within **6 months of opening**. Prevent large quantities of product from entering surface waterways.

Safety: Extremely flammable aerosol. Pressurised container – may burst if heated. Keep away from heat, sparks, open flames and

other ignition sources. Do not smoke during application. Avoid spraying onto hot surfaces or near electrical ignition sources. Wear **thermal insulating gloves** to protect against cold burns and suitable eye protection where required. Use in well-ventilated areas and avoid inhaling concentrated vapours. Do not pierce or burn the aerosol can, even after use. Protect from direct sunlight and temperatures exceeding **50°C**. Keep out of reach of children and dispose of containers according to local regulations.
