Numatic Quick Wall Mount

Variant code: 16-915351

Numatic Quick Wall Mount is a **purpose-designed storage dock** created specifically for the **Numatic Quick Battery Powered Stick Vacuum Cleaner**. Engineered to provide secure, convenient and space-saving storage, this genuine Numatic accessory helps keep your vacuum cleaner, accessories and charging equipment neatly organised and readily accessible between cleaning tasks.

Designed to complement the sleek and practical design of the Numatic Quick system, the wall mount allows the vacuum cleaner to be stored safely off the floor, helping to protect the machine while maximising available storage space. This makes it particularly useful in cleaning cupboards, utility rooms, janitorial stores, offices and other locations where efficient equipment organisation is essential.

The wall-mounted design provides a dedicated storage location for the Quick vacuum, helping reduce clutter and ensuring the machine is always ready for use. By keeping equipment securely stored, the wall mount also helps prevent accidental damage and promotes better care and maintenance of the vacuum cleaner.

Manufactured to Numatic's high standards, the Quick Wall Mount offers reliable durability and seamless compatibility with the Numatic Quick range. Whether installed in a commercial environment or at home, it provides a professional storage solution that supports efficient cleaning operations and organised equipment management.
