Hand Towel Roll Dispenser - Raphael - Lever Control - Blue

Variant code: 28-LEVBLURA

Raphael Lever Control Hand Towel Roll Dispenser is a **professional manual hand towel dispenser** designed to provide hygienic, controlled paper towel dispensing in commercial washrooms. Its **lever-operated mechanism** dispenses a single flat sheet of paper at a length determined by the user, offering a practical and reliable hand drying solution for busy environments.

Featuring a **BioKleen™ treated contact handle**, the dispenser is designed to help limit the spread of washroom bacteria through frequently touched surfaces. Its **'Towel In' presentation system** keeps paper towels enclosed and protected until the handle is operated, while the translucent cover on Smoke and Blue models, or translucent back on the White model, allows cleaning staff to check paper levels without opening the dispenser.

Designed for **high-traffic washrooms**, the dispenser offers generous paper capacity to help reduce the frequency of replenishment. An optional **stub roll transfer system** helps maximise paper usage and minimise waste. Available in **Blue, Smoke and White**, the dispenser provides a convenient, easy-to-maintain solution for offices, schools, hospitality venues and other commercial facilities.

Product Features

- **Manual lever-operated hand towel roll dispenser** for commercial washrooms
- Dispenses a single flat sheet at a length determined by the user
- **'Towel In' presentation** keeps paper enclosed and protected before dispensing
- **BioKleen™ treated contact handle** helps limit the spread of washroom bacteria
