Selgiene Ultra Bactericidal and Virucidal Cleaner - Case of 2x5L

Variant code: 05-C066

Selgiene Ultra Bactericidal & Virucidal Cleaner is a powerful, professional-grade cleaner and disinfectant formulated to provide effective cleaning and broad-spectrum infection control in commercial, healthcare and public environments. Designed to clean and disinfect in a single operation, Selgiene Ultra helps maintain the highest hygiene standards while reducing cleaning time and labour costs.

Tested to recognised European standards, Selgiene Ultra delivers proven bactericidal and virucidal performance against a wide range of harmful microorganisms. Its advanced formulation effectively removes dirt, grease and organic contamination while simultaneously disinfecting hard surfaces. Suitable for use across multiple environments, the product provides reliable hygiene protection without compromising cleaning performance, making it an ideal choice for routine cleaning and infection prevention programmes.

Supplied in a convenient **case of 2 x 5 litre containers**, Selgiene Ultra is economical for high-volume users and suitable for dilution systems, trigger sprays and bucket cleaning methods. Its versatility allows use on a wide range of washable surfaces, helping facilities maintain a clean, safe and hygienic environment for staff, visitors and customers.
