Prochem Solvex - 1L

Variant code: 09-A277

Prochem Solvex is a professional, non-volatile, water-rinseable solvent and detergent spot remover designed to tackle stubborn solvent-soluble stains on compatible carpets, fabrics and hard surfaces. Its specialist formulation combines penetrating solvents with detergents to help loosen and remove contamination that may be difficult to treat using conventional water-based cleaning products.

Particularly effective for the treatment of **oil-based paint, gloss paint, emulsion paint, nail polish, varnish, oil, grease and solvent-soluble inks**, Solvex provides targeted cleaning action for small surface spots and stains. Its water-rinseable formulation allows residual product and loosened contamination to be removed through subsequent rinse extraction.

Supplied as a **ready-to-use liquid**, Solvex requires no dilution and is suitable for professional carpet cleaning contractors, upholstery cleaning specialists and commercial cleaning teams carrying out specialist spot and stain removal.

Product Features

- **Specialist solvent and detergent formulation** assists with loosening stubborn solvent-soluble contamination.
- **Non-volatile formulation** supports controlled treatment of localised spots and stains.
- **Water-rinseable cleaning action** allows residual product to be removed through water rinse extraction.
- **Paint and varnish removal** suitable for treating oil-based paint, gloss paint, emulsion paint and varnish deposits.
- **Specialist ink removal** assists with the treatment of solvent-soluble ink stains.
- **Oil and grease removal** targets oily and greasy contamination on compatible surfaces.
- **Ready-to-use formulation** requires no dilution or preparation before application.
- **Multi-surface compatibility** suitable for solvent-resistant carpets, fabrics and hard surfaces.
- **Targeted spot treatment** designed specifically for small areas of surface

contamination.

Product Benefits

- **Effective specialist stain removal** supports the treatment of stubborn contamination resistant to conventional cleaning methods.
- **Improved cleaning performance** combines solvent and detergent action to assist with loosening difficult residues.
- **Reduced risk of residual ring marks** allows remaining cleaning product to be removed through appropriate rinse extraction.
- **Improved cleaning precision** enables targeted treatment of individual spots and stains.
- **Reduced preparation time** eliminates the need for chemical measuring and dilution.
- **Controlled cleaning application** supports gentle blotting and removal of softened contamination.
- **Improved surface presentation** helps restore the appearance of compatible carpets, fabrics and hard surfaces.
- **Versatile professional application** provides a practical addition to specialist spot and stain removal kits.

Technical Characteristics

- **Brand:** Prochem
- **Product Range:** Solvex
- **Product Type:** Solvent and Detergent Spot Remover
- **Product Category:** Specialist Spot and Stain Removers
- **Capacity:** 1L
- **Physical State:** Clear Liquid
- **Colour:** Colourless
- **Odour:** Solvent
- **Relative Density:** 0.88
- **Flash Point:** 66°C (Closed Cup)
- **Oxidising Properties:** Not Applicable
- **Formulation:** Non-Volatile Solvent and Detergent Blend
- **Water-Rinseable:** Yes
- **Dilution:** Ready-to-Use (Use Neat)
- **Aliphatic Hydrocarbon Content:** 15% to Less Than 30%
- **Non-Ionic Surfactant Content:** 5% to Less Than 15%
- **Listed Product Weight:** 1kg
- **Pack Quantity:** 1 x 1L Bottle

Tel: 01626 355177
Email: info@aukhygiene.com

- **Manufacturer Case Quantity:** 5 x 1L
- **Target Stains:** Paint, Oil, Grease, Nail Polish, Varnish and Solvent-Soluble Inks
- **Surface Compatibility:** Compatible Solvent-Resistant Carpets, Fabrics and Hard Surfaces
- **Application Method:** Manual Application Using a Folded White Towel
- **Residue Removal Method:** Water Rinse Extraction
- **Storage Temperature:** 5°C to 30°C
- **CLP Classification:** Serious Eye Damage Category 1 and Aspiration Toxicity Category 1
- **Signal Word:** Danger
- **Intended Use:** Professional and Industrial Spot and Stain Removal

Applications

Area of Use: Ideal for **professional carpet cleaning contractors, upholstery cleaning specialists, commercial cleaning companies, hotels, hospitality establishments and facilities management teams**. Suitable for removing small spots of oil-based paint, gloss paint, emulsion paint, nail polish, varnish, oil, grease and solvent-soluble inks from compatible carpets, upholstery fabrics and hard surfaces.

How to Use: Use Prochem Solvex undiluted. Apply a small amount of product to the affected area using a folded white towel. Allow the formulation to soften the contamination before carefully removing residues with a blunt scraper or gently blotting with a clean white towel or tissue. Do not rub the affected area. Repeat the treatment if necessary. For best results, rinse extract with water to remove residual product and contamination, helping prevent the formation of ring marks.

Application Considerations: Always pre-test carpets, fabrics and hard surfaces in a small, inconspicuous area before proceeding to establish colourfastness and solvent resistance. **Do not use on solvent-sensitive fibres or surfaces, including certain plastics. Do not over-apply or pour directly onto stains.** Restrict application to small surface spots and stains. Avoid excessive solvent penetration into carpet backing, adhesives and upholstery fillings. Ensure adequate ventilation during indoor use. Some aged ink and paint stains may be permanent and cannot be completely removed. Do not mix with strong oxidising agents, acids, alkalis or other

incompatible chemicals.

Safety: For professional and industrial use only. **Danger: Causes serious eye damage. May be fatal if swallowed and enters airways.** Repeated exposure may cause skin dryness or cracking. Wear solvent-resistant nitrile gloves, suitable protective clothing, eye protection and face protection. Avoid inhaling vapours or spray and ensure adequate ventilation throughout application. Use suitable respiratory protection where ventilation is insufficient. Keep away from heat, sparks, open flames and other ignition sources. If swallowed, obtain immediate medical assistance without inducing vomiting. In case of eye contact, rinse immediately with water for at least 15 minutes, removing contact lenses where this can be done easily, and obtain immediate medical attention. Keep out of reach of children. Store in the original tightly closed container in a cool, dry and well-ventilated location. Dispose of product and contaminated materials according to applicable waste disposal regulations. Always follow the product label and workplace COSHH procedures.

Property	Value
Dilution	Use Neat
Fragrance	Solvent
Area of Use	Carpets, fabrics and hard surfaces
CLP	corrosive, human-hazard
How to Use	Apply to stain with white towel. Use for small surface spots/stains. Scrape residue with blunt knife/blot gently with white towel, do not rub. Repeat if required. For best results, rinse extract with water to remove residue, preventing ring marks.
Chemical Colour	Colourless
