Eliminator High Performance Disinfectant Wipes - Pack of 100

Variant code: 02-500

Eliminator High Performance Disinfectant Wipes provide a fast and effective solution for cleaning and disinfecting hands and hard surfaces in professional environments. Supplied in a convenient **pack of 100** with a resealable **clip-top lid**, these ready-to-use antibacterial and antiviral wet wipes help maintain high standards of hygiene while remaining easy to dispense and store. Each wipe measures **20 x 20cm**, offering generous coverage for efficient cleaning and sanitising.

Formulated for broad-spectrum antimicrobial performance, Eliminator wipes are independently tested to **EN1276, EN1650, EN13697 and EN14476** standards, providing effective protection against bacteria, fungi and viruses. The pre-moistened wipes are suitable for both hand hygiene and hard surface disinfection, making them ideal where quick and convenient cleaning is required without the need for additional sprays or cloths. The clip-top container helps prevent the wipes from drying out between uses, ensuring they remain ready whenever needed.

Designed for healthcare, education, commercial and public environments, the Eliminator High Performance Disinfectant Wipes offer a practical and reliable hygiene solution for everyday infection control and routine surface sanitising.
