Prochem Brass Female Quick Connector - Solution Hose Coupling

Variant code: 16-GU00102

Prochem Brass Female Quick Connector is a **durable quick-connect coupling** designed for use with carpet cleaning solution hoses, wands and extraction equipment. Manufactured from high-quality brass, this genuine Prochem fitting provides a secure, leak-resistant connection while allowing fast attachment and removal of compatible cleaning accessories.

Engineered for professional carpet and upholstery cleaning applications, the female quick connector helps streamline equipment setup and breakdown by eliminating the need for threaded connections. Its precision-machined design ensures reliable coupling performance while maintaining consistent solution flow throughout the cleaning process.

Constructed from corrosion-resistant brass, the connector is built to withstand the demands of daily commercial use, including exposure to cleaning chemicals, hot water and high-pressure solution systems. Its robust design provides long-lasting durability and dependable operation in challenging cleaning environments.

As a genuine Prochem replacement component, the Brass Female Quick Connector offers reliable compatibility and is ideal for maintaining or repairing professional carpet cleaning equipment.

Product Features

- **Genuine Prochem female quick connector**
- Durable brass construction
- Fast connect and disconnect design
- Suitable for carpet cleaning solution systems
- Leak-resistant coupling
- Corrosion-resistant material
- Precision-machined for secure fitment
- Professional-grade replacement part

Product Benefits

- **Allows rapid hose and accessory**

connections
- **Provides a secure and reliable solution flow connection**
- **Reduces equipment setup and breakdown time**
- Durable brass construction ensures long service life
- Resistant to corrosion and cleaning chemicals
- Helps maintain efficient extraction system performance

Technical Characteristics

- Product Type: **Female Quick Connect Coupling**
- Material: **Brass**
- Connection Type: Quick Release / Quick Connect
- Application: Carpet Cleaning Solution Systems
- Construction: Corrosion-Resistant Metal
- Compatibility: Suitable for compatible Prochem hoses, wands and accessories
- Genuine Prochem spare part

Applications

Prochem Brass Female Quick Connector is ideal for **professional carpet cleaners, upholstery cleaning specialists, contract cleaning companies, facilities management providers and restoration professionals**. Suitable for connecting **solution hoses, carpet wands, upholstery tools and extraction equipment**, it provides a reliable and efficient connection point for professional cleaning systems.

Property	Value
Weight (kg)	0.14
Material	Brass
Area of Use	Carpet Cleaning Machines, Upholstery Cleaning Machines, Solution Hoses, Extraction Cleaning Equipment.
How to Use	Install the 1/4" brass female socket onto a compatible solution hose or machine fitting and connect the matching male quick-connect plug to create a secure solution line connection.
Product Type	Quick Connect Socket
Connection Type	Female Socket
