Sebo Replacement Exhaust Filter: For Dart 1

Variant code: 16-7015ER

Sebo Replacement Exhaust Filter is a **genuine replacement filtration component** designed specifically for the **Sebo Dart 1 Vacuum Cleaner**. Positioned within the vacuum's exhaust system, this filter helps capture fine dust particles and airborne contaminants before air is released back into the environment, supporting cleaner indoor air and maintaining optimum vacuum performance.

As an essential part of the Dart 1 filtration system, the exhaust filter helps improve air quality during cleaning by trapping residual dust and allergens that may pass through the vacuum bag and primary filtration stages. Regular replacement ensures efficient airflow, consistent suction performance and effective exhaust filtration.

Manufactured to Sebo's exacting standards, this genuine replacement filter provides a perfect fit and dependable performance. Its high-quality construction helps maintain the overall efficiency of the vacuum cleaner while supporting a cleaner and healthier environment in both commercial and domestic settings.

Product Features

- Genuine Sebo replacement exhaust filter
- Designed for Sebo Dart 1 vacuum cleaners
- Captures fine dust and airborne particles
- Helps improve indoor air quality
- Maintains efficient airflow through the vacuum
- Supports optimum cleaning performance
- Easy to install and replace
- Durable high-quality filter construction

Product Benefits

- **Helps improve air quality during vacuuming**
- **Captures fine dust and airborne contaminants**
- **Maintains optimum vacuum cleaner performance**
- Supports cleaner and healthier environments
- Helps prevent dust from being released
