Selden Stainless Steel Cleaner Aerosol - 480ml

Variant code: 06-K050

Selden Stainless Steel Cleaner Aerosol is a **professional stainless steel cleaner and polish** designed to clean, polish and protect metal surfaces in one easy action. Ideal for commercial kitchens, bathrooms and hospitality environments, it removes everyday marks while restoring surfaces to their original lustre.

The **non-abrasive, silicone-free formulation** cleans without scratching and leaves a **non-greasy protective film** that helps resist fingerprints and dust. Suitable for stainless steel, chrome, aluminium and lacquered surfaces, it provides an attractive, polished finish while helping maintain the appearance of frequently used fixtures and fittings.

Supplied in a convenient **480ml aerosol can**, this professional metal surface polish is easy to apply using either direct spraying or a clean cloth. Its **CFC-free formulation** contains no chlorofluorocarbons, making it a practical choice for routine cleaning and polishing.

Product Features

- **3-in-1 cleaning action** cleans, polishes and protects.
- **Non-greasy protective film** helps resist fingerprints and dust.
- **Non-abrasive formulation** cleans without scratching.
- **Restores surface lustre** for an attractive polished finish.
- **Silicone-free formula** for professional surface care.
- **Suitable for multiple surfaces**, including stainless steel, chrome and aluminium.
- **CFC-free aerosol** contains no chlorofluorocarbons.
- **480ml aerosol can** for convenient application.

Product Benefits

- **Improves surface appearance** by restoring shine and lustre.
- **Helps reduce fingermarking** on frequently touched surfaces.
