Truvox Dust Bags For Valet Backpack - Pack Of 10

Variant code: 16-U2U11078

Truvox Valet Backpack Vacuum Paper Dust Bags - Pack of 10 are genuine replacement vacuum cleaner bags designed specifically for compatible **Truvox Valet Backpack vacuum cleaners**. Manufactured from high-filtration paper, these disposable dust bags provide effective collection and containment of dust, dirt and everyday dry debris during routine vacuum cleaning. Their purpose-designed construction supports efficient airflow and reliable suction performance, making them an essential consumable for professional cleaning and regular vacuum cleaner maintenance.

The **high-filtration paper construction** helps retain collected dust and debris within the bag while allowing air to pass through the vacuum system. Regular replacement of filled or worn dust bags helps maintain consistent cleaning performance and prevents unnecessary airflow restrictions. The disposable design also supports hygienic waste removal, helping minimise direct operator contact with accumulated dirt when replacing the bag. This makes the bags particularly useful in busy commercial environments where cleanliness and efficient equipment maintenance are important.

Supplied in a convenient **pack of 10 replacement dust bags**, these genuine Truvox consumables provide a practical stock of replacements for cleaning contractors, housekeeping departments and facilities management teams. Suitable for routine vacuum maintenance in offices, hotels, educational establishments, retail premises and other commercial buildings, they help reduce interruptions caused by unavailable replacement bags. Their disposable format eliminates the need to empty and clean reusable collection bags after use, simplifying everyday equipment maintenance.

Product Features

- **Genuine Truvox replacement bags** designed to meet original equipment specifications.
- **Valet Backpack compatibility** specifically designed for compatible Truvox Valet Backpack vacuum cleaners.
- **High-filtration paper construction**

- **Reusable:** No
- **Replacement Frequency:** As Required, According to Fill Level and Machine Performance
- **Intended Use:** Professional and Commercial Vacuum Cleaning

Applications

Area of Use: Designed for use with compatible **Truvox Valet Backpack vacuum cleaners** operating in offices, hotels, schools, colleges, retail premises, healthcare facilities, leisure centres and commercial buildings. Suitable for routine dry vacuum cleaning of carpets, entrance matting and compatible hard flooring using the appropriate vacuum cleaner accessories. Particularly useful for professional cleaning contractors and facilities management teams carrying out regular maintenance cleaning.

How to Use: Switch off the vacuum cleaner and disconnect it from the power supply before replacing the dust bag. Open the dust collection compartment according to the machine manufacturer's instructions and carefully remove the used bag, avoiding unnecessary disturbance of collected dust. Fit a new **Truvox paper dust bag**, ensuring it is correctly positioned and securely attached to the appropriate inlet connection. Close the compartment securely before returning the vacuum cleaner to operation. Dispose of the used bag appropriately.
