Twister Floor Pad Green 12"/330mm - Pack of 2

Variant code: 03-211624

The **Twister Green Diamond Floor Pads - 12"/330mm** are professional diamond-impregnated floor cleaning and polishing pads designed for **wet cleaning, floor maintenance and high-gloss polishing**. Featuring a fine **3000 grit diamond abrasive**, these pads help remove surface dirt while maintaining the shine and appearance of suitable hard flooring. Their specialist cleaning technology makes them suitable for regular floor maintenance in commercial and professional environments.

The **Green Twister Pad** is the final polishing stage in the traditional Twister diamond floor treatment system. Its microscopic diamond abrasives provide a fine polishing action that helps maintain a smooth, glossy floor finish during routine cleaning. The pad is suitable for use on **terrazzo, marble, natural stone, polished concrete, vinyl and linoleum**, subject to the flooring manufacturer's recommendations. For effective cleaning, **always use the pad wet**, ensuring sufficient water is present before starting the machine.

Designed for use with **compatible slow-speed scrubbing machines and scrubber dryers operating at 100–200 RPM**, the pads provide an effective solution for wet floor maintenance. They are suitable for thorough cleaning of compatible floors, although heavily worn or damaged surfaces may require a coarser pad before progressing to the Green finishing stage. Supplied in a convenient **pack of 2 pads**, they are ideal for professional cleaning contractors, facilities management teams and commercial floor maintenance programmes.

Product Features

- **Green diamond floor cleaning and polishing pads** for professional floor maintenance
- **12"/330mm nominal diameter** for compatible cleaning machines
- **3000 grit diamond abrasive** for fine polishing and daily cleaning
- Designed for **wet cleaning and polishing**

Twister system
- **Wear-indicator design** provides a visual guide for pad replacement
- **Pack of 2 pads** provides a convenient supply for professional cleaning operations

Technical Characteristics

- **Product Range:** Twister
- **Product Type:** Diamond Floor Cleaning and Polishing Pad
- **Colour:** Green
- **Nominal Pad Diameter:** 12"/330mm
- **Abrasive Grade:** 3000 Grit
- **Abrasive Technology:** Microscopic Diamond Abrasives
- **Pad Base Material:** Recycled PET (Supplier Stated)
- **Cleaning Method:** Wet Use with Water
- **Recommended Machine Type:** Compatible Slow-Speed Scrubbing Machine or Scrubber Dryer
- **Specified Operating Speed:** 100–200 RPM
- **Primary Application:** Hard Floor Cleaning and Polishing
- **Additional Applications:** Floor Shine Maintenance and Final-Stage Polishing
- **Suitable Floor Types:** Marble, Terrazzo, Natural Stone, Polished Concrete, Vinyl and Linoleum, Subject to Surface Compatibility
- **Polishing Stage:** Final Stage of the Traditional Twister System
- **Wear Indicator:** Green Colour Layer
- **Pack Quantity:** 2 Pads
- **Packaging:** Pack of 2

Applications

The **Twister Green Diamond Floor Pads - 12"/330mm - Pack of 2** are suitable for **wet cleaning, fine polishing and maintaining the shine of hard floors** in commercial and public environments, including **offices, schools, hospitals, hotels, retail premises, shopping centres and public buildings**. Their **3000 grit diamond abrasive** is particularly effective for maintaining previously polished surfaces such as **marble, terrazzo, natural stone and polished concrete**, as well as compatible vinyl and linoleum floors. For best results, **ensure the pad is wet before use** and operate with a suitable **slow-speed scrubbing machine or scrubber dryer at 100–200 RPM**. Where floors are heavily soiled,
