UN Clinical Waste Sack - 80L - 8 KG - Orange - Case of 200

Variant code: 18-CL8KG

UN Clinical Waste Sacks are high-strength **80 litre clinical waste disposal bags** designed for the safe, hygienic and compliant handling of hazardous healthcare waste. Manufactured to meet stringent **UN approved standards**, these orange clinical waste sacks provide reliable containment and transportation performance for medical, laboratory and healthcare environments.

Produced from durable high-strength polyethylene, the sacks are engineered to resist tearing, punctures and leaks during use and transportation. Their high-visibility **orange colour** supports correct waste segregation and helps improve safety and compliance in healthcare facilities. Each sack offers a generous **80 litre capacity** with an approved **8kg load rating**, making them suitable for the collection and disposal of infectious waste, pathological waste, pharmaceutical waste and other healthcare-related waste streams requiring specialist handling.

Supplied in a practical **case of 200 sacks**, organised as **8 rolls of 25 bags**, these UN approved waste sacks provide convenient storage, efficient dispensing and dependable bulk supply for busy healthcare and clinical environments.

Product Features

- **UN approved clinical waste sacks**
- **80 litre capacity**
- **8kg approved load rating**
- High-strength polyethylene construction
- Designed to resist punctures, tears and leaks
- High-visibility **orange colour** for waste segregation
- Suitable for compliant clinical waste transportation
- Supplied as **8 rolls of 25 bags**
- **Case quantity: 200 sacks**

Product Benefits

- Supports safe and compliant clinical waste disposal

Tel: 01626 355177
