	compatible dispenser calibrated to this dosage.
Trusted Brand	Part of AUK Hygiene's Windmill range of professional cleaning and hygiene products.

Why Choose Windmill Touch Clean Foam Soap?

Unlike alcohol-based hand sanitisers, which are designed for use without water, **Windmill Touch Clean Foam Soap** is intended for thorough hand washing with water.

Regular hand washing helps physically remove dirt, grease and microorganisms from the skin, making it particularly important in food preparation areas, commercial kitchens and other hygiene-sensitive environments.

Benefits include:

- **Effective Hand Washing:** Helps remove dirt, grease and everyday contaminants when used with water.
- **Fragrance-Free:** Suitable for environments where perfumed hand care products are undesirable.
- **Economical Refilling:** The 5L container provides a practical solution for high-volume hand soap requirements.
- **Convenient Foaming Formula:** Produces foam that spreads easily across the hands.
- **Professional Hygiene:** Ideal for commercial and workplace handwashing facilities.

Area of Use

Suitable for handwashing facilities in commercial kitchens, food preparation areas, healthcare environments, offices, schools, washrooms and other workplaces requiring regular hand hygiene.

How to Use

Refill a compatible refillable foam soap dispenser according to the manufacturer's instructions. Apply foam to wet hands, rub thoroughly for at least 20 seconds, covering all surfaces, then rinse with clean water and dry thoroughly.

Frequently Asked Questions (FAQs)

Q1: Is this soap suitable for food preparation environments?

A: Yes, Windmill Touch Clean is a fragrance-free foaming hand soap suitable for handwashing facilities in food preparation and handling environments. Always follow applicable workplace hygiene procedures.

Q2: Can the 5L container be used to refill foam soap dispensers?

A: The 5L container is intended for replenishing compatible refillable foam soap dispensers. Check dispenser compatibility before use, as some sealed cartridge systems cannot be manually refilled.

Q3: How many doses can I get from a 5L container?

A: Based on an approximate dispensing volume of 0.8ml per shot, a 5L container could provide approximately **6,250 doses**. Actual yield depends on the dispenser, its settings and any product lost during refilling.

Q4: Is the soap fragrance-free?

A: Yes, Windmill Touch Clean Clear Foam Soap is fragrance-free, making it suitable for environments where unperfumed handwashing products are preferred.

Q5: Is this product effective against bacteria and viruses?

A: Windmill Touch Clean is described as an antibacterial and antiviral foaming hand soap. Effectiveness against specific bacteria and viruses should be confirmed against the manufacturer's supporting efficacy test data.

Why Choose the 5L Size?

The **5L refill container** offers a practical and cost-effective option for businesses requiring regular hand soap replenishment. Its larger capacity reduces the frequency of purchasing smaller containers and supports efficient stock management in busy workplaces.
