# SAFETY DATA SHEET Food Lube

### SECTION 1: Identification of the substance/mixture and of the company/undertaking 1.1. Product identifier Product name Food Lube 1.2. Relevant identified uses of the substance or mixture and uses advised against Identified uses Food safe lubricant spray PC24 Lubricants, greases, release products 1.3. Details of the supplier of the safety data sheet Supplier Aerosol Solutions Ltd Unit C2 Bridgefield Ind Est Draycott Road Breaston Derbv **DE72 3DS** T 01332 870030 F 01332 870033 sales@aerosolsolutions.co.uk 1.4. Emergency telephone number **Emergency telephone** 01332 870 030 **SECTION 2: Hazards identification** 2.1. Classification of the substance or mixture Classification (EC 1272/2008) Physical hazards Aerosol 1 - H222, H229 Health hazards Skin Irrit. 2 - H315 STOT SE 3 - H336 **Environmental hazards** Aquatic Acute 1 - H400 Aquatic Chronic 1 - H410 Human health Gas or vapour is harmful on prolonged exposure or in high concentrations. In high concentrations, vapours and aerosol mists have a narcotic effect and may cause headache, fatigue, dizziness and nausea. Deliberately concentrating and inhaling the contents of this container is dangerous and can be fatal. Environmental This product contains substances which are very toxic or toxic to aquatic organisms and may cause long term effects to the aquatic environment (see sections 2 and 12) **Physicochemical** Aerosol containers can explode when heated, due to excessive pressure build-up. The product is extremely flammable. When sprayed on a naked flame or any incandescent material the aerosol vapours can be ignited. 2.2. Label elements

The full text for all hazard statements is displayed in Section 16.

#### SECTION 4: First aid measures

#### 4.1. Description of first aid measures

| General information | Move affected person to fresh air at once.                                                                                                                                                                                                                                             |
|---------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Inhalation          | If spray/mist has been inhaled, proceed as follows. Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. If breathing stops, provide artificial respiration. Keep affected person warm and at rest. Get medical attention immediately. |
| Ingestion           | Rinse mouth thoroughly with water. Do not induce vomiting. Get medical attention.                                                                                                                                                                                                      |

| Skin contact                                                      | Remove contaminated clothing immediately and wash skin with soap and water.                                                                                                                                                                                                                                                            |
|-------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Eye contact                                                       | Rinse immediately with plenty of water. Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 15 minutes and get medical attention.                                                                                                                                                                    |
| 4.2. Most important symptoms                                      | and effects, both acute and delayed                                                                                                                                                                                                                                                                                                    |
| General information                                               | The severity of the symptoms described will vary dependent on the concentration and the length of exposure.                                                                                                                                                                                                                            |
| 4.3. Indication of any immedia                                    | te medical attention and special treatment needed                                                                                                                                                                                                                                                                                      |
| Notes for the doctor                                              | Treat symptomatically.                                                                                                                                                                                                                                                                                                                 |
| SECTION 5: Firefighting meas                                      | sures                                                                                                                                                                                                                                                                                                                                  |
| 5.1. Extinguishing media                                          |                                                                                                                                                                                                                                                                                                                                        |
| Suitable extinguishing media                                      | Extinguish with foam, carbon dioxide, dry powder or water fog.                                                                                                                                                                                                                                                                         |
| 5.2. Special hazards arising fr                                   | om the substance or mixture                                                                                                                                                                                                                                                                                                            |
| Specific hazards                                                  | Extremely flammable. Forms explosive mixtures with air. Vapours are heavier than air and may spread near ground and travel a considerable distance to a source of ignition and flash back. Containers can burst violently or explode when heated, due to excessive pressure build-up.                                                  |
| 5.3. Advice for firefighters                                      |                                                                                                                                                                                                                                                                                                                                        |
| Protective actions during firefighting                            | Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Use water to keep fire exposed containers cool and disperse vapours. Warn firefighters that aerosols are involved.                                                                                                 |
| SECTION 6: Accidental release                                     | se measures                                                                                                                                                                                                                                                                                                                            |
| 6.1. Personal precautions, pro                                    | tective equipment and emergency procedures                                                                                                                                                                                                                                                                                             |
| Personal precautions                                              | Provide adequate ventilation. Use suitable respiratory protection if ventilation is inadequate.<br>Avoid inhalation of vapours.                                                                                                                                                                                                        |

Environmental precaution                                     | <u>s</u>                                                                                                                                                                                                                                                                                                                               |
| Environmental precautions                                         | Avoid the spillage or runoff entering drains, sewers or watercourses. Contain spillage with sand, earth or other suitable non-combustible material.                                                                                                                                                                                    |
| 6.3. Methods and material for                                     | containment and cleaning up                                                                                                                                                                                                                                                                                                            |
| Methods for cleaning up                                           | Eliminate all sources of ignition. No smoking, sparks, flames or other sources of ignition near spillage. Provide adequate ventilation. Absorb spillage with non-combustible, absorbent material. Leave small quantities to evaporate, if safe to do so. Do not allow material to enter confined spaces, due to the risk of explosion. |

| SECTION 7: Handling and storage                                   |                                                                                                                                                                                                                                                                                                                                        |
| 7.1. Precautions for safe hand                                    | ling                                                                                                                                                                                                                                                                                                                                   |
| Usage precautions                                                 | Read and follow manufacturer's recommendations. Keep away from heat, sparks and open flame. Eliminate all sources of ignition. Do not spray on a naked flame or any incandescent material.                                                                                                                                             |
| 7.2. Conditions for safe storage, including any incompatibilities |                                                                                                                                                                                                                                                                                                                                        |
| Storage precautions                                               | Store in tightly-closed, original container in a dry, cool and well-ventilated place.                                                                                                                                                                                                                                                  |

#### 7.3. Specific end use(s)

Specific end use(s)

The identified uses for this product are detailed in Section 1.2.

### SECTION 8: Exposure Controls/personal protection

#### 8.1. Control parameters

#### Occupational exposure limits

#### PETROLEUM GASES, LIQUEFIED; PETROLEUM GAS

Long-term exposure limit (8-hour TWA): WEL 1000 ppm 1750 mg/m<sup>3</sup> Short-term exposure limit (15-minute): WEL 1250 ppm 2180 mg/m<sup>3</sup>

#### Hydrocarbons, C7-C9, isoalkanes

Long-term exposure limit (8-hour TWA): 300 ppm 1400 mg/m<sup>3</sup> WEL = Workplace Exposure Limit

| Ingredient comments                                                                                       | WEL = Workplace Exposure Limits SUP = Supplier's recommendation.                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

| 8.2. Exposure controls                                                                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| Appropriate engineering<br>controls                                                                       | Provide adequate ventilation. Avoid inhalation of vapours and spray/mists. Observe any occupational exposure limits for the product or ingredients.                                                                                                                                                                                                                                                                                                                                                                                         |
| Personal protection                                                                                       | When using do not smoke.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| Eye/face protection                                                                                       | Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. The following protection should be worn: Chemical splash goggles.                                                                                                                                                                                                                                                                                                                                                        |
| Hand protection                                                                                           | Due to the packaging form, aerosol, risk of skin contact is small. Chemical-resistant, impervious gloves complying with an approved standard should be worn if a risk assessment indicates skin contact is possible. It is recommended that gloves are made of the following material: Nitrile rubber. Polyvinyl alcohol (PVA). Viton rubber (fluoro rubber). The most suitable glove should be chosen in consultation with the glove supplier/manufacturer, who can provide information about the breakthrough time of the glove material. |
| Hygiene measures                                                                                          | Wash hands after handling. Wash at the end of each work shift and before eating, smoking and using the toilet. Use appropriate hand lotion to prevent defatting and cracking of skin.                                                                                                                                                                                                                                                                                                                                                       |
| Respiratory protection                                                                                    | If ventilation is inadequate, suitable respiratory protection must be worn.                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| SECTION 9: Physical and Chemical Properties<br>9.1. Information on basic physical and chemical properties |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

| Appearance                      | Aerosol.               |
|---------------------------------|------------------------|
| Colour                          | White/off-white.       |
| Odour                           | Organic solvents.      |
| Initial boiling point and range | -40 to -2°C @ 1013 hPa |
| Flash point                     | <-40°C                 |

| Upper/lower flammability or explosive limits | Lower flammable/explosive limit: 1.8% Upper flammable/explosive limit: 9.5%                                                                                                            |

| Other information                            | Not available.                                                                                                                                                                         |
| Volatile organic compound                    | This product contains a maximum VOC content of 525 g/l.                                                                                                                                |
| SECTION 10: Stability and read               | activity                                                                                                                                                                               |
| 10.1. Reactivity                             |                                                                                                                                                                                        |
| Reactivity                                   | Stable at normal ambient temperatures and when used as recommended.                                                                                                                    |
| 10.2. Chemical stability                     |                                                                                                                                                                                        |
| Stability                                    | Avoid the following conditions: Heat, sparks, flames.                                                                                                                                  |
| 10.3. Possibility of hazardous               | reactions                                                                                                                                                                              |
| Possibility of hazardous reactions           | Does not decompose when used and stored as recommended.                                                                                                                                |
| 10.4. Conditions to avoid                    |                                                                                                                                                                                        |
| Conditions to avoid                          | Avoid heat, flames and other sources of ignition. Avoid exposing aerosol containers to high temperatures or direct sunlight.                                                           |
| 10.5. Incompatible materials                 |                                                                                                                                                                                        |
| Materials to avoid                           | Keep away from oxidising materials, heat and flames.                                                                                                                                   |
| 10.6. Hazardous decomposition                | on products                                                                                                                                                                            |
| Hazardous decomposition products             | Does not decompose when used and stored as recommended. Thermal decomposition or<br>combustion products may include the following substances: Toxic and corrosive gases or<br>vapours. |
| SECTION 11: Toxicological information        |                                                                                                                                                                                        |
| 11.1. Information on toxicolog               | ical effects                                                                                                                                                                           |
| General information                          | Deliberately concentrating and inhaling the contents of this container is dangerous and can be fatal.                                                                                  |
| Inhalation                                   | In high concentrations, vapours and aerosol mists have a narcotic effect and may cause headache, fatigue, dizziness and nausea. Unconsciousness, possibly death.                       |
| Skin contact                                 | Irritating to skin.                                                                                                                                                                    |
| Eye contact                                  | Vapour or spray in the eyes may cause irritation and smarting.                                                                                                                         |
|                                              | · · · · · · · · · · · · · · · · · · ·                                                                                                                                                  |

Acute and chronic healthArrhythmia (deviation from normal heart beat). Irritating to skin. In high concentrations,hazardsvapours and aerosol mists have a narcotic effect and may cause headache, fatigue, dizziness<br/>and nausea.

Route of exposure Inhalation

| Ecotoxicity                        | This product has not been tested but contains ingredients which are toxic or very toxic to aquatic organisms and may cause long term adverse effects in the aquatic environment. During normal use the volatility of the components and the packaging form, pressurised container, make entry into the aquatic environment unlikely, however, do not empty or discharge into drains or watercourses. Ensure container is empty before disposal to prevent contents entering watercourses. |

| General information                | Do not puncture or incinerate, even when empty.                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| Disposal methods                   | Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority. Containers should be thoroughly emptied before disposal because of the risk of an explosion. Empty containers must not be punctured or incinerated because of the risk of an explosion.                                                                                                                                                                       |
| SECTION 14: Transport information  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| General                            | This product is packed in accordance with the Limited Quantity Provisions of CDGCPL2, ADR<br>and IMDG. These provisions allow transport of aerosols of less than 1 litre packed in cartons<br>of less than 30kg gross weight to be exempt from control providing that they are labelled in<br>accordance with the requirements of these regulations to show that they are being transported<br>as Limited Quantities. Aerosols not so packed and labelled must show the following.        |
| 14.1. UN number                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
