FROM NOW

# DRYFT®

## The world's first S-Motion Scrubber Dryer

Introducing DRYFT, a breakthrough in floor cleaning technology. With its patented ultra low profile head shape and groundbreaking 4200rpm Scrubbing Technology, DRYFT delivers 100% floor cleaning coverage in half the time.

Now you can clean 100% of the floor surface.

### Low profile.

We designed our own compact, low profile digital motor which allowed us to create the world's lowest profile scrubber dryer for cleaning underneath partitions as low as 5cm.

### Hard-to-reach areas.

DRYFT's patented head shape is the key to its limitless cleaning ability, efficiently cleaning around toilets in seconds.

### Corner cleaning.

Don't cut corners, DRYFT them. DRYFT will scrub and dry deep into corners, thanks to the chamfered edges on the cleaning head.

 **motion®**  
the way we clean

DRYFT is the world's first S-Motion Scrubber Dryer. DRYFT cleans in widths of 160cm whilst you walk forward once, in comparison to other scrubbers, that require the user to walk four times up and down to cover this same cleaning width. The result is 75% less walking with DRYFT allowing the user to double their floor cleaning productivity.

DRYFT cleans 100m<sup>2</sup> / 1076ft<sup>2</sup> in just 3.9 minutes.

### Floor Tracking Technology

DRYFT tracks and adjusts automatically to uneven floors, thanks to the SPYDR Chassis, which enables the cleaning pad and squeegees to adjust independently, so that they keep tracking the floor.

### Aluminium Chassis

Robust aluminium construction designed for commercial use.

### Magnetic Recovery Tank

Easy to clean and empty.

### Spin Handle

Keeps your upper hand stationary allowing the machine to rotate effortlessly.

### S-Handle

The ergonomically designed S-Handle enables the user to effortlessly guide the machine in the super fast S-Motion.

### Simple Controls

Switch between smooth floor mode and rough floor mode at the press of a button.

### DRYFT Core-ion

Clean 24/7 with DRYFT Core-ion quick change battery technology, 1 Hour 15 minute runtime.

### Service Pods™

Anybody can service DRYFT with our smart service pod design. Quickly and easily change all serviceable parts: suction motor, solenoid valve, PCB, squeegees and more.

### Quick Fill Magnetic Tank

2.5 Litre/ 0.55 Gallon clean water tank.

### Ultimate Manoeuvrability

Forged aluminium torque transmitting ball joint.

### Transportation Wheels

Flip the head onto the transport wheels for easy transportation between cleaning areas.

### MAGPlate

Colour coded magnetic cleaning pad.

### Wall Protection Glide Wheels

Non-marking soft rubber which enables precision edge cleaning.

### Quick Release Squeegee

Tool-free design for easy maintenance.

### Efficient Water Release

High performance cleaning with just water, thanks to 4200rpm scrubbing action.

Patented technology

Clean at **DRYFT** speed
