Compostable Bin Liners - 10L - Roll of 26

Variant code: 18-VBL10

Compostable Bin Liners are eco-friendly **10 litre waste bags** designed for the hygienic collection and disposal of food waste and organic materials. Manufactured from plant-based compostable materials, these sustainable liners provide a practical alternative to traditional plastic waste bags while supporting environmentally responsible waste management practices.

Designed specifically for use in **10 litre kitchen caddies and small waste bins**, these compostable liners offer reliable strength and leak resistance for handling food scraps, organic waste and compostable materials. Certified compostable to recognised standards, the liners naturally break down during composting without leaving harmful residues behind. Their breathable construction helps reduce moisture build-up and unpleasant odours commonly associated with food waste collection.

Supplied in a convenient **roll of 26 liners**, these compostable waste bags provide an easy and sustainable solution for environmentally conscious households and workplaces looking to reduce plastic waste and improve organic waste recycling.

Product Features

- **Compostable bin liners**
- **10 litre capacity**
- Manufactured from plant-based compostable materials
- Certified biodegradable and compostable
- Suitable for food waste and organic material collection
- Breathable material helps reduce odours and moisture build-up
- Strong and leak-resistant construction
- **Roll quantity: 26 liners**

Product Benefits

- Provides hygienic and sustainable food waste disposal
- Helps reduce environmental impact and plastic waste
