19mm D' Pull Handle Bolt Through Fix - Satin Stainless Steel - 225mm

Variant code: 2005.19.225.BT.SSS

19mm D Pull Handle is a premium architectural pull handle designed to provide reliable operation and a contemporary appearance for a wide range of internal and external doors. Manufactured from **Grade 304 stainless steel** with a **Satin Stainless Steel (SSS)** finish, it offers excellent corrosion resistance, durability and long-lasting performance, making it an ideal choice for both commercial and residential applications.

Featuring a **19mm diameter tubular profile**, this pull handle is available in **150mm, 225mm, 300mm, 425mm and 600mm lengths**, allowing you to select the most suitable size for your project. Each handle is supplied with **bolt-through fixings**, providing a strong and secure installation on timber, aluminium and metal doors. The bolt-through fixing method delivers enhanced stability, making the handle suitable for high-traffic environments while maintaining a clean, professional appearance.

Combining the strength of **Grade 304 stainless steel** with modern architectural styling, this D pull handle provides a durable, corrosion-resistant solution that coordinates perfectly with matching Satin Stainless Steel door furniture for a consistent, high-quality finish.
