18" Hard Surface Cleaner - Flat Surface Cleaner Attachment with Castors for Petrol Pressure Washers

Variant code: 16-HST18

18" Hard Surface Cleaner is a **professional flat surface cleaner attachment** designed to maximise cleaning productivity when used with compatible petrol pressure washers. Featuring a wide **460mm (18-inch) cleaning path**, this heavy-duty attachment enables operators to clean large exterior surfaces quickly and efficiently, making it ideal for contractors, facilities management teams and professional pressure washing applications.

Engineered for demanding environments, the surface cleaner is rated for use with machines delivering up to **30 litres per minute and 285 bar pressure**. Its high-performance rotary cleaning system can clean **up to 38m² per minute**, dramatically reducing cleaning times compared to standard pressure washing lances. The compensating gun feature ensures smoother operation and improved user control during extended cleaning tasks.

Constructed with **heavy-duty anodised aluminium rotary arms**, a maintenance-free swivel assembly and a rugged ABS housing, the unit is built to withstand intensive commercial use. The enclosed design helps reduce overspray while delivering an even and consistent cleaning result across driveways, patios, pathways, car parks and other hard surface areas.

For enhanced manoeuvrability, the attachment is fitted with **four stainless steel caster wheels**, allowing effortless movement across surfaces while maintaining a consistent cleaning height. The unit features a **3/8" NPT female inlet** and comes fitted with twin nozzles mounted on the rotary arm for optimum cleaning performance.

Product Features

- **Professional 18" (460mm) flat surface cleaner**
- Rated up to **30LPM and 285 Bar**
- Cleans up to **38m² per minute**
- Heavy-duty anodised aluminium rotary arms

- Maintenance-free swivel assembly
- Rugged ABS protective housing
- Four stainless steel caster wheels
- **3/8" NPT female inlet connection**

Product Benefits

- **Delivers significantly faster cleaning than a standard pressure washer lance**
- **Wide 460mm cleaning path saves time on large areas**
- **Provides consistent, streak-free surface cleaning**
- Reduces operator fatigue during extended cleaning tasks
- Durable construction for professional and commercial use
- Easy manoeuvrability across large hard surfaces

Technical Characteristics

- Cleaning Width: **18" (460mm)**
- Maximum Flow Rate: **30 Litres per Minute**
- Maximum Pressure: **285 Bar**
- Cleaning Capacity: **Up to 38m² per minute**
- Inlet Connection: **3/8" NPT Female Thread**
- Rotary Arm: Heavy-duty anodised aluminium
- Housing: Rugged ABS cover
- Wheels: Four stainless steel caster wheels
- Fitted with twin rotary-arm nozzles

Applications

The 18" Hard Surface Cleaner is ideal for **professional cleaning contractors, facilities management providers, property maintenance teams and exterior cleaning specialists**. Suitable for cleaning **driveways, patios, pathways, forecourts, car parks, warehouse yards, paved areas and other large hard surfaces**, it delivers faster, more efficient and more consistent results than traditional pressure washing methods.

Property	Value
Warranty (Years)	1
Weight (kg)	9.5
