

## 24V 10A Gel Battery Charger with Red Plug for Fimap iMx Suitable for 2 x GF12076V Batteries

Variant code: 16-IMXCHARGER

**24V 10A Gel Battery Charger with Red Plug** is a high-performance replacement charger designed for **Fimap iMx series scrubber dryers** fitted with **2 x GF12076V gel batteries**. Delivering a controlled **24V 10A charging output**, it provides efficient, reliable charging to maximise battery performance, extend battery life and minimise machine downtime.

Engineered for professional cleaning equipment, the charger features an intelligent multi-stage charging process that safely charges gel batteries while protecting against overcharging and excessive heat build-up. Supplied with a **red battery connector plug** for direct compatibility with Fimap iMx machines, it offers simple plug-and-charge operation for convenient everyday use. Its compact, robust construction makes it suitable for demanding commercial environments, delivering dependable performance throughout repeated charging cycles.

Ideal as a replacement or spare charger, this unit helps maintain the productivity of Fimap iMx scrubber dryers by ensuring batteries are correctly charged and ready for the next cleaning operation.

---

### Product Features

- High-performance **24V 10A gel battery charger**
- Designed for **Fimap iMx scrubber dryers**
- Suitable for **2 x GF12076V gel batteries**
- Supplied with **red battery connector plug**
- Intelligent multi-stage charging technology
- Optimised for sealed gel battery charging
- Protects against overcharging and overheating
- Robust, compact construction
- Simple plug-and-charge operation
- Ideal for commercial cleaning equipment

---

### Product Benefits

- Delivers fast and efficient battery charging
- Helps maximise gel battery service life
- Reduces machine downtime between cleaning tasks
- Protects batteries with controlled charging technology
- Easy to connect and operate
- Reliable performance for demanding commercial environments

---

## Technical Characteristics

- **Product Type:** Gel Battery Charger
- **Output Voltage:** 24V DC
- **Charging Current:** 10A
- **Battery Type:** Sealed Gel Batteries
- **Battery Configuration:** 2 x GF12076V
- **Connector:** Red Battery Plug
- **Charging Technology:** Intelligent Multi-Stage Charging
- **Machine Compatibility:** Fimap iMx Series Scrubber Dryers
- **Application:** Commercial Floor Cleaning Equipment

---

## Applications

The **24V 10A Gel Battery Charger with Red Plug** is ideal for charging **Fimap iMx walk-behind scrubber dryers** equipped with **2 x GF12076V gel batteries**. Suitable for use in **schools, hospitals, warehouses, supermarkets, shopping centres, offices, manufacturing facilities, leisure centres and contract cleaning environments**, it provides reliable, efficient charging to keep cleaning equipment operating at peak performance while helping maximise battery life and productivity.

| Property    | Value |
|-------------|-------|
| Length (mm) | 134.5 |
| Weight (kg) | 1.8   |
| Width (mm)  | 241   |
| Height (mm) | 80    |
| Voltage     | 24V   |
