300mm Dry Floor Tool 32mm with wheels

Variant code: 16-TLS129

300mm Dry Floor Tool is a **professional Numatic-type 32mm vacuum floor tool** designed for fast and efficient cleaning of **large hard floor areas and short pile carpets**. Featuring a wide **300mm cleaning path** and integrated wheels, this floor tool glides smoothly across surfaces, providing greater coverage and improved productivity compared to conventional vacuum floor tools.

The lightweight, low-resistance design allows operators to clean large spaces with minimal effort, while the integrated wheels reduce friction and improve manoeuvrability. Suitable for everyday commercial cleaning, the tool efficiently collects dust, dirt and debris from hard flooring and low-pile carpeted areas without compromising suction performance.

Manufactured from durable materials for long service life, this replacement floor tool is compatible with **32mm vacuum cleaners and accessories**, making it an excellent choice for maintaining offices, schools, hotels, healthcare facilities and other commercial environments.

Ideal for routine maintenance cleaning, the 300mm Dry Floor Tool offers a practical and cost-effective solution for improving cleaning speed and efficiency.

Product Features

- **300mm wide dry vacuum floor tool**
- Compatible with **32mm vacuum systems**
- Integrated wheels for smooth operation
- Designed for hard floors and short pile carpets
- Wide cleaning path for increased productivity
- Lightweight and easy to manoeuvre
- Durable commercial-grade construction
- Numatic-type compatible design

Product Benefits

- **Cleans large floor areas faster than conventional floor tools**
- **Smooth rolling wheels reduce operator**
