A2 Gas Filter Universal Thread - Black

Variant code: 22-P906BKR

The P906 filter is an anti-gas filter that protects against contaminant gases. It is equipped with a standard DIN threaded connection conforming to EN 148-1 and can be used on full face masks equipped with the same standard connection. This gas filter protects from organic gases and vapours where the boiling point is higher than 65°C. Classified as a class 2 filter, it can be used to protect against harmful substances, solvents and gases.
