Aeroflow Tap for 5L Container 38mm Self Venting

Variant code: 14-716

Air returning flow lever taps designed for single-opening containers, metal or plastics, from 1 to 5L (with a 38mm neck).

Suitable for:

- Low viscosity liquids such as water
- Liquid food - Fully EU and FDA approved
- Household cleaning products and disinfectants
- Chemicals - highly resistant

Excellent flow rate of **70 ml/sec** when fully opened, with the possibility to control the dispense by turning the lever accordingly.

Gives an effortless, glug-free dispense with no hazard, no waste and no need for secondary venting.
