Aerosol Solutions Label Remover Aerosol - 500ml

Variant code: 06-0309

Aerosol Solutions Label Remover Aerosol - 500ml is a powerful, solvent-based adhesive remover designed to dissolve the sticky residues left behind by labels, stickers and adhesive tapes. Developed for quick and efficient cleaning, this specialist aerosol helps loosen stubborn adhesives, allowing labels to be removed more easily from a variety of compatible surfaces. Its convenient spray application makes it a practical solution for professional cleaning, maintenance, packaging and general adhesive removal tasks.

Formulated with **effective adhesive-dissolving solvents**, the product works by softening the adhesive bond between a label and the underlying surface. This helps reduce the effort required to remove unwanted stickers, price labels, identification labels and adhesive deposits. The fast-acting formulation is designed to leave surfaces free from sticky adhesive residue after appropriate cleaning, making it particularly useful when preparing equipment, containers and other suitable materials for reuse or relabelling.

Supplied in a convenient **500ml aerosol can**, this ready-to-use label remover requires no dilution or additional dispensing equipment. The spray format allows users to apply the product directly to affected areas, helping simplify routine maintenance and cleaning procedures. Suitable for use in **workshops, warehouses, offices, retail premises, industrial facilities and commercial cleaning environments**, it offers an efficient solution for removing unwanted adhesive materials while helping maintain clean and presentable surfaces.

Product Features

- **Powerful adhesive removal** helps dissolve the adhesive used on stickers, labels and tapes.
- **Quick and efficient action** loosens unwanted adhesive deposits to simplify removal.
- **Residue-free cleaning performance** is designed to remove sticky adhesive deposits from compatible surfaces.
- **Solvent-based formulation** helps break

down adhesive bonds without excessive scraping.
- **Convenient aerosol application** allows targeted spraying onto affected areas.
- **Ready-to-use product** requires no mixing, dilution or preparation.
- **Versatile adhesive removal** suitable for different label and sticker removal tasks.
- **Professional cleaning solution** supports maintenance, housekeeping and relabelling operations.
- **Clear liquid formulation** provides effective solvent-based cleaning action.
- **500ml aerosol can** offers a practical size for regular professional use.

Product Benefits

- **Faster label removal** reduces the time and effort required to remove unwanted stickers.
- **Effective adhesive dissolution** helps loosen stubborn glue deposits for easier cleaning.
- **Cleaner surface finish** helps remove sticky residue that may remain after labels are peeled away.
- **Reduced mechanical scraping** can help minimise the need for aggressive removal methods on compatible surfaces.
- **Convenient spray application** provides direct treatment of affected areas without additional equipment.
- **Versatile workplace use** supports cleaning and maintenance in commercial and industrial environments.
- **Ready-to-use convenience** allows immediate application whenever adhesive removal is required.

Technical Characteristics

- **Brand:** Aerosol Solutions
- **Product Type:** Label and Adhesive Remover
- **Product Format:** Solvent-Based Aerosol
- **Capacity:** 500ml
- **Physical State:** Liquid
- **Appearance:** Aerosol
- **Colour:** Clear
- **Formulation Type:** Solvent-Based
- **Flash Point:** Below -40°C
- **Volatile Organic Compound Content:** 670g/L
- **Volatility:** Volatile
- **Kinematic Viscosity:** Below 20.5mm²/s

- **Propellant Type:** Liquefied Petroleum Gas
- **Primary Function:** Dissolving Label and Sticker Adhesives
- **Suitable Applications:** Label Removal, Sticker Removal and Adhesive Residue Cleaning
- **Application Method:** Direct Aerosol Spray
- **Dilution:** None Required
- **Hazard Classification:** Extremely Flammable Aerosol
- **Additional Hazards:** Causes Skin and Eye Irritation; May Cause an Allergic Skin Reaction or Drowsiness and Dizziness
- **Environmental Hazard:** Harmful to Aquatic Life with Long Lasting Effects
- **Intended Use:** Professional and General-Purpose Adhesive Removal

Applications

Area of Use: Ideal for **workshops, warehouses, offices, retail premises, maintenance departments, packaging operations and commercial cleaning environments**. Suitable for removing unwanted labels, stickers, tape adhesive and sticky deposits from compatible surfaces. Particularly useful when cleaning containers, equipment, storage materials and other items that require old labels or adhesive residues to be removed before reuse or relabelling.

How to Use: Ensure the work area is **well ventilated** and free from ignition sources. Test the product on a small, inconspicuous area to confirm surface compatibility. Apply a controlled amount of aerosol to the unwanted label or adhesive residue, following the instructions on the container. Allow sufficient time for the solvent to soften the adhesive before carefully peeling away the label or lifting the residue using a suitable non-abrasive tool. Wipe the treated area with a clean cloth and repeat if necessary. Allow the surface to dry completely before further handling or relabelling.

Application Considerations: This is a **solvent-based adhesive remover** and may affect certain plastics, painted finishes, coatings, rubber materials or other solvent-sensitive surfaces. Always carry out a compatibility test before widespread application. Avoid excessive spraying and prevent the product from entering electrical equipment or contacting hot surfaces. Do not apply directly to food, food preparation areas or

materials that could become contaminated. The product is intended for adhesive removal rather than general-purpose surface cleaning.

Safety: Danger. Extremely flammable aerosol. Pressurised container may burst if heated. Keep away from heat, sparks, open flames and other ignition sources. Do not smoke during application. Avoid breathing vapours or spray mist and use only outdoors or in well-ventilated areas. The formulation **causes skin irritation and serious eye irritation, may cause an allergic skin reaction and may cause drowsiness or dizziness**. Wear suitable protective gloves and eye protection. Prevent release into drains and watercourses. Do not pierce or burn the container, even after use. Protect from sunlight and temperatures exceeding **50°C**. Store securely and keep out of reach of children. Always follow the product label and relevant workplace safety procedures.
