

AUK Pro Double Flat Mop Bucket with Roller Wringer – 30L – Red

Variant code: 14-APB30R

The **AUK Pro Double Flat Mop Bucket with Roller Wringer – 30L** is a professional mopping system designed for cleaning **large floor areas**. Its double bucket configuration provides separate areas for **clean and dirty water**, helping support frequent water changes during professional floor cleaning.

The **30L double bucket system** features a fixed partition to maintain clean and dirty water separation. This practical arrangement helps cleaning operatives manage water throughout the cleaning process while reducing unnecessary waste of cleaning solution.

For convenient emptying, the system incorporates a **drain plug at each end**, reducing the need to lift the bucket when disposing of water. It also features a **graduated scale in litres and gallons** and two carry handles, and can be used with **Kentucky, socket and microfibre wet mopping systems**.

Product Features

- **Professional 30L double bucket mopping system**
 - Designed for cleaning **large floor areas**
 - **Fixed partition** separates clean and dirty water
 - Supports **frequent water changes** as required during cleaning
 - Complete with **2 drain plugs**
 - Drain plug positioned at **each end** for easier emptying
 - Designed to reduce the need to **lift the bucket when emptying**
 - **Graduated scale in litres and gallons**
 - Complete with **two carry handles**
 - Suitable for use with **Kentucky mopping systems**
 - Suitable for use with **socket mopping systems**
 - Suitable for use with **microfibre wet mopping systems**
-

Product Benefits

- **Separate clean and dirty water compartments provide a practical system for professional floor cleaning**
- **Twin drain plugs make emptying easier while reducing the need to lift and tip the bucket**
- **30L capacity and double bucket design make the system suitable for cleaning large areas**
- **Fixed water separation supports frequent water changes when required**
- **Graduated litre and gallon markings make it easier to measure the contents of the bucket**
- **Compatibility with Kentucky, socket and microfibre wet mopping systems provides flexibility across different mopping methods**
- **Two carry handles provide a practical means of handling the mopping system**

Technical Characteristics

- **Product Type:** Professional Double Bucket Mopping System
- **Capacity:** 30L
