AUK Pro Extending Mop Handle - 102-184cm - Blue

Variant code: 14-APHE

The Aluminium telescopic handle is light and rustproof. Equipped with 2 grey plastic grips to enable a better grip, ergonomics and also avoid direct contact between the operators hands and the aluminium. The professional telescopic handle has a double function. It can be used in substitution to the traditional handles. This handle has an advantage to adjust the length according to the operators needs. Furthermore, the insert for the terminal cone enables to use the handle as a telescopic pole for dust collectors, window washers etc. Extends up to 184cm. For use with flat mopping systems
