

B-Fly Long Handled Spillage Kit

Variant code: 11-5645

B-Fly is the dust pan with rubber edge and squeegee system.

This allows you to lift semi-liquid substances or damp material without leaving traces on the floor. With its light ergonomic structure, the B-Fly is ideal in places where food and semi-humid substances are dropped frequently, such as in bars, restaurants, canteens, hospitals. They can be picked up simply and quickly, allowing the residue to be disposed quickly and also safely.

The B-Fly has a particular shape which makes it easy to clean however efficient in picking up waste because it adapts perfectly to the floor, in this way the squeegee with the rubber blade can easily convey the residue into the bag. It is sufficient to detach the bag to eliminate the dirt, thus avoiding contact with your hands and unpleasant odours.
