

Bio Productions Bio Blocks Urinal Blocks – 1.1kg

Variant code: 05-503

Biological Urinal Blocks have been specially formulated to reduce odour problems and blockages in urinals.

New strains of bacteria have been introduced to the biological and enzymatic cleaning efficacy to remove fats, uric-scale and solids that build up in urinal traps and pipework causing odours and blockages. Citrus perfumed and water soluble, Bio blocks efficiently eradicate the source of this problem, providing substantial savings on both washroom maintenance and water bills as the need for constant flushing and more regular cleaning is reduced.

Safe to use on stainless steel, porcelain and ceramic.

Approximately 50 blocks per tub.

Use in conjunction with Blu-Away to maintain an odour-free washroom environment.

Property	Value
Fragrance	Citrus
pH	8
Area of Use	Urinals
CLP	corrosive
How to Use	Place one block in each urinal. Space every 50 cm in trough urinals. Replace when the block has dissolved for maximum efficacy.
Chemical Colour	Blue
