Bio Productions Drain Solution - 1L

Variant code: 06-105

A powerful blend of selected enzymes and microorganisms that efficiently and safely reduce the sticky greasy waste evacuated into drainage systems, causing blockages.

Drain Solution improves flow rates and prevents odour problems in the small-bore pipes flowing from sinks, baths, showers and kitchen macerators.

For trouble free odourless outlets pour 50ml into opening once a week.

Disinfectants, bleach caustic and acid products will adversely affect the biological action of drain cleaner.

Property	Value
Fragrance	Lemon
pH	7 - 8
Dilution	Use undiluted. For trouble free odourless outlets pour 50 ml into opening once a week
Usage Instructions	Shake container well before opening. Remove excess water, pour 50ml directly into sink or drain opening. Add water to activate unblocker. Leave for a minimum of 30 minutes. (Ideally overnight). Flush with hot water to remove residues.
Area of Use	Sinks & drains
How to Use	Shake well before opening. Remove excess water, pour 50ml directly into sink or drain opening. Add water to activate unblocker. Leave for a minimum of 30 minutes. (Ideally overnight). Flush with hot water to remove residues. Repeat if necessary.
Chemical Colour	Green
