

## Bio Productions Royal Flush Toilet Fluid – 5L

**Variant code: 05-192**

Royal Flush Toilet Fluid concentrated blend of detergents and natural probiotic microorganisms that produce enzymes to quickly digest and liquefy solid waste and prevents odours. Formulated specially for portable toilets and commodes, replacing formaldehyde based products.

Biodegradable Royal Flush is compatible with all types of drainage systems, including septic tanks. Only activated by dilution with water, cannot be overused nor cause damage to the drainage system.

- Biodegradable
- Non harmful
- Highly effective in all chemical toilets
- Easy and convenient to use
- Prevents odour

### DIRECTIONS

Shake container before use.

### PORTABLE TOILETS

pour 50-100ml into commodes and portable toilets and add enough water to cover the base

### CARAVAN & MARINE TOILETS

Pour 200-300ml into toilet tank and add 5L of clean water

### SITE TOILETS

Pour 200-300ml into tank and add 5L of clean water
