Mens Bleached Stockinette Glove (Glove Liners) - Size 10

Variant code: 22-209/10

Bleached Stockinette Glove: The Essential Multi-Purpose Liner & Protector

Experience the perfect blend of cleanliness and comfort with our **High-Quality Bleached Stockinette Glove**. Designed for tasks requiring a delicate touch or an extra layer of thermal protection, these gloves are a staple in clinical, industrial, and retail environments.

Crafted from a premium **polyester and cotton blend**, these gloves feature a sophisticated **fourchette style -** where separate pieces of fabric are sewn into the sides of the fingers. This results in a superior, anatomical fit that reduces bulk and enhances finger mobility.

Key Features & Benefits

- **Fourchette Construction:** Unlike standard flat-sewn gloves, the fourchette design offers a **3D contoured fit**, ensuring maximum comfort during long shifts.
- **Open Cuff Design:** Engineered for efficiency, the open cuff allows for **easy donning and doffing**, making them perfect for high-pace environments.
- **Breathable Cotton Blend:** The poly-cotton fabric promotes airflow, keeping hands cool and absorbing perspiration when used as a **high-performance glove liner**.
- **Bleached for Purity:** The clean, white finish is ideal for **product protection**, preventing fingerprints, oils, and skin cells from contaminating sensitive surfaces like glass, electronics, or archival materials.
- **Minimal Risk Protection:** Rated as **Category 1 PPE**, these gloves provide a reliable barrier against non-hazardous dirt and dust.

Technical Specifications

Feature	Detail
Material	Premium Polyester & Cotton Blend
Style	Fourchette (Side-stitched fingers)
Colour	Bright Bleached White
Classification	CE Category 1 (Minimal Risks)
Cuff Type	Open / Loose Wrist

Pro-Tips for Product Protection & Comfort

- **The Ultimate Liner:** Wear these under heavy rubber or nitrile gloves to absorb sweat and prevent the "sticky" feeling associated with long-term waterproof glove use.
- **Inspection Ready:** These are the "go-to" choice for **quality control inspectors**. The bleached white fabric makes it easy to spot any dust or contaminants you may have picked up.
- **Coin & Jewelry Handling:** Use these for handling collectibles or high-end retail items to avoid acidic skin oils tarnishing metal surfaces.

Frequently Asked Questions (FAQs)

Q: Are these gloves reversible?A: Due to the high-quality fourchette tailoring (which follows the natural shape of the hand), these gloves are specifically designed for the left and right hand to provide the best possible fit.

Q: Can these be washed and reused?A: Yes! The polyester/cotton blend is durable enough for light machine washing. We recommend air drying to prevent excessive shrinkage and maintain the bright white appearance.

Q: Do these gloves provide heat protection?A: As a Category 1 glove, they are not rated for high-heat environments. However, they provide a comfortable thermal barrier against mild cold or as a base layer in chilled environments.
