# Non-Abrasive Sponge Scourer - Pack of 10 - Blue

**Variant code: 12-066**

**Non-Abrasive Sponge Scourers** are professional dual-action cleaning pads designed to deliver effective cleaning performance while protecting delicate surfaces from scratches and damage. Combining a gentle non-scratch scouring layer with a highly absorbent sponge backing, these versatile scourers provide reliable everyday cleaning for commercial, industrial and domestic environments.

Engineered for professional cleaners, catering environments and domestic use, these non-abrasive sponge scourers effectively remove grease, grime and food residue without harming sensitive surfaces such as non-stick cookware, glassware, stainless steel and ceramic finishes. The absorbent sponge side efficiently handles spills and wiping tasks, while the ergonomic design ensures comfortable handling during extended cleaning sessions.

Supplied in a convenient **pack of 10 blue scourers**, these reusable cleaning pads support colour-coded hygiene systems and offer a durable, cost-effective solution for kitchens, washrooms, hospitality venues and general cleaning applications.

## Product Features
