Bold Professional Bio Laundry Powder - Lotus Flower & Water Lily - 100 Washes - 5.5kg

Variant code: 08-257

Bold Professional Bio Laundry Powder - Lotus Flower & Water Lily, also known as Bold Auto, is a professional biological washing powder developed to deliver effective laundry cleaning and lasting freshness. Its powerful **2-in-1 biological formulation** combines detergent cleaning performance with a delicate floral fragrance, helping remove everyday dirt and stains while leaving clothing, bedding, towels and other washable textiles clean and pleasantly fragranced.

The specialist formulation features **anti-residue technology** that helps prevent powder residues from remaining on fabrics, reducing the need for unnecessary rewashing. The distinctive Lotus Flower & Water Lily fragrance provides a subtle, refreshing scent that lasts for up to 12 hours. Designed to deliver effective cleaning across a wide range of washing temperatures and water hardness conditions, the powder supports flexible and efficient professional laundry operations.

Supplied in a convenient **5.5kg bulk box providing up to 100 washes**, this professional laundry detergent offers an economical solution for establishments processing large quantities of washable textiles. Its phosphate-free formulation provides effective cleaning without the routine need for pre-washing or pre-soaking, helping reduce unnecessary water and energy consumption where appropriate.

Product Features

- **Professional biological laundry powder** developed for effective cleaning of frequently washed textiles.
- **2-in-1 cleaning and freshness formulation** combines dependable detergent performance with lasting fragrance.
- **Lotus Flower & Water Lily fragrance** leaves clothing and linen with a delicate floral scent.
- **Long-lasting freshness** provides pleasantly fragranced laundry for up to 12

hours.
- **Anti-residue technology** helps minimise detergent powder residues on washed fabrics.
- **Effective stain removal** helps remove everyday dirt, staining and general laundry soiling.
- **White and coloured fabric compatibility** suitable for compatible washable textiles.
- **Wide washing temperature range** supports laundry programmes from 20°C to 95°C.
- **Phosphate-free formulation** provides professional cleaning performance without added phosphates.
- **Water hardness compatibility** suitable for soft, medium and hard water conditions with appropriate dosing.
- **Bulk 5.5kg format** provides sufficient detergent for up to 100 standard washes.

Product Benefits

- **Effective laundry cleaning** helps restore the clean and presentable appearance of frequently used textiles.
- **Long-lasting fabric freshness** enhances the experience of freshly laundered clothing, towels and bedding.
- **Improved laundry presentation** helps maintain the brightness and cleanliness of compatible white and coloured fabrics.
- **Reduced rewashing requirements** helps minimise additional laundry cycles caused by detergent residues.
- **Potential water and energy savings** supports effective cleaning without routine pre-washing or pre-soaking.
- **Flexible washing performance** accommodates different washing temperatures, fabric types and water hardness conditions.
- **Economical laundry care** provides a practical detergent solution for establishments with frequent washing requirements.
- **Improved operational efficiency** supports straightforward measuring and dispensing during routine laundry programmes.
- **Enhanced guest experience** helps hospitality establishments provide clean, fresh-smelling towels, bedding and linen.

Technical Characteristics

- **Brand:** Bold Professional
- **Product Range:** Bold Auto
- **Product Type:** Biological Laundry Washing Powder
- **Fragrance:** Lotus Flower & Water Lily
- **Net Weight:** 5.5kg
- **Pack Quantity:** 1 x 5.5kg
- **Number of Washes:** Up to 100 Standard Washes
- **Packaging Type:** Box
- **Physical State:** Solid
- **Appearance:** Powder
- **Colour:** White with Coloured Speckles
- **Odour:** Pleasant, Perfumed
- **pH:** 9.5–11.4
- **Relative Density:** 0.6–0.9
- **Water Solubility:** Soluble in Water
- **Flammability:** Non-Flammable
- **Explosive Properties:** Non-Explosive
- **Oxidising Properties:** Non-Oxidising
- **Formulation:** 2-in-1 Biological Laundry Detergent
- **Phosphate Content:** Phosphate-Free
- **Fragrance Duration:** Up to 12 Hours
- **Washing Temperature Range:** 20°C–95°C
- **Standard Reference Dosage:** 85ml (Approximately 55g)
- **Water Hardness Compatibility:** Soft, Medium and Hard Water
- **Fabric Compatibility:** Compatible White and Coloured Washable Textiles
- **Unsuitable Fabrics:** Wool and Silk
- **Primary Function:** Laundry Cleaning and Stain Removal
- **Secondary Function:** Fabric Freshening and Brightness Maintenance
- **Application Method:** Washing Machine Main Wash Detergent Compartment
- **Chemical Stability:** Stable Under Normal Conditions
- **Signal Word:** Warning
- **Hazard Classification:** Causes Serious Eye Irritation (H319)
- **Additional Hazard Information:** Contains Delta-Damascone. May Produce an Allergic Reaction.
- **Storage Conditions:** Store in Original Packaging in a Cool, Dry Location
- **Intended Use:** Professional and Commercial Laundry Cleaning

Applications

Area of Use: Ideal for professional laundry operations in **hotels, restaurants, care homes,**

Tel: 01626 355177
Email: info@aukhygiene.com

commercial laundries, guest houses, hospitality establishments and housekeeping departments. Suitable for cleaning compatible clothing, uniforms, towels, bedding, table linen, napkins and other washable textiles. Particularly useful in establishments requiring effective stain removal, bright fabrics and lasting freshness across frequent laundry cycles.

How to Use: Measure the appropriate quantity of **Bold Professional biological laundry powder** according to the laundry load, water hardness and degree of soiling. The standard reference dosage is 85ml, equivalent to approximately 55g of powder. Dispense the measured detergent into the washing machine's main wash detergent compartment. Adjust the dosage for larger loads, heavily soiled fabrics or hard water conditions according to the manufacturer's dosing instructions. Select the appropriate washing programme between 20°C and 95°C, depending on the fabric type and textile care requirements. Always follow the recommended dosage and garment care instructions.

Application Considerations: Always check textile care labels before washing and separate white and coloured fabrics where appropriate. Do not use on wool or silk textiles; select a suitable specialist detergent instead. Avoid excessive dosing and overloading the washing machine, as these may affect rinsing and cleaning performance. Routine pre-washing or pre-soaking is generally unnecessary for normally soiled laundry. Keep the detergent compartment clean and dry to support effective powder dispensing. Where thermal or chemical disinfection is required, follow the appropriate validated laundry hygiene programme, as conventional laundry detergent alone does not guarantee disinfection.

Safety: Warning. Causes serious eye irritation. Contains Delta-Damascone. May produce an allergic reaction. Avoid contact with eyes and unnecessary inhalation of powder dust. Wear suitable eye protection when handling bulk quantities in professional environments. Wash hands thoroughly after handling. In case of eye contact, rinse cautiously with water for several minutes, removing contact lenses if this can be done easily. Continue rinsing and seek medical advice if irritation persists. If swallowed or feeling unwell, contact a poison centre or doctor. Store in the original, securely closed packaging in a cool, dry location away from moisture. Keep out of reach of children and unauthorised users. Always
