

Brasso Wadding – 75g

Variant code: 06-306

Brasso Metal Polish Wadding keeps metal looking immaculate. For use on brass, copper, stainless steel and chrome, this product has been specially designed to provide excellent results and a longer lasting shine. These wadding pads have been impregnated with cleaning fluid meaning there is no need to get an extra cloth dirty. Brasso Metal Polish Wadding has been in use for over a century – it has truly stood the test of time – and this product will continue to maintain the lustre of metal surfaces in the future.
