Flex/ Cable 10 Metre 3 Core with Kettle Plug Connection (To Suit Karcher T10/Nilfisk VP300)

Variant code: 16-FLX10

Flex/Cable 10 Metre 3 Core with Kettle Plug Connection is a high-quality replacement mains cable designed for **Kärcher T10 (KC10) and Nilfisk VP300 series vacuum cleaners**. Featuring a standard IEC "kettle plug" connection and a UK 13A mains plug, this heavy-duty cable provides a reliable power supply while allowing quick removal and replacement for easy transport, storage and maintenance.

Manufactured with durable **3-core flexible cable**, the 10-metre lead offers excellent reach for cleaning large commercial areas while reducing the need to frequently change power outlets. Its robust construction is designed to withstand the rigours of everyday professional cleaning, providing dependable performance in demanding commercial environments.

Ideal for replacing damaged or worn power leads, this detachable cable restores safe and reliable operation to compatible vacuum cleaners. The plug-and-play design allows fast installation, helping minimise equipment downtime and keeping your cleaning operation running efficiently.

Product Features

- 10 metre heavy-duty 3-core mains cable
- Standard IEC kettle plug machine connection
- UK 13A mains plug fitted
- Compatible with Kärcher T10 (KC10) and Nilfisk VP300 vacuum cleaners
- Detachable design for easy replacement and storage
- Durable flexible cable construction
- Plug-and-play installation
- Suitable for commercial cleaning equipment

Product Benefits

- **Provides a reliable replacement power lead for compatible vacuum cleaners**
