

Carbon Fibre 6-Section Reach Telescopic Window Cleaning Pole - 32'

Variant code: 13-HXTELO885022V2

The Streamline® OVA8® carbon fibre telescopic waterfed poles are designed in an oval profile section, reducing the wear of the sections from the pole clamps.

The flat sides of the Streamline® OVA8® Pole will cancel out that "whipping effect" either from moving a pole at height from one window to another or 'bouncing off the glass' motions. Operators will be more productive and will be able to work safer – both for themselves and for others around them.

Features:

- Number of Sections: 6
- Minimum Length: 1,865mm / 6ft
- Maximum Pole Length: 9,150mm / 30ft
- Achievable Height: 33ft / 10.6m
- Weight (Pole Only): 1.70kg
- Pole Tubing Length: 12m

Property	Value
Length	32'
