Diversey Carefree Satin and Care Floor Polish - 5L (Previously Carefree Emulsion)

Variant code: 03-231

Diversey Carefree Satin and Care is a **medium gloss floor polish** designed for professional environments where durability and ease of maintenance are key priorities. Part of the Diversey Carefree range, this formulation is developed to deliver consistent floor protection while maintaining a subtle satin finish suited to a wide range of commercial interiors.

The product provides **superior resistance to everyday traffic marks and scuffing**, helping maintain floor appearance in busy environments. Its **low gloss formulation** reduces the visibility of wear while making routine maintenance more efficient. Compared to higher gloss alternatives, it can **reduce maintenance requirements by up to 50%**, supporting improved operational efficiency in demanding settings.

Carefree Satin and Care is suitable for use on **vinyl, rubber, linoleum and other thermoplastic surfaces**. It can also be used as a **finishing coat on terrazzo, timber and concrete**, providing flexibility across different flooring types. Supplied in a 5L format, it integrates easily into structured floor care programmes and can be applied using standard application methods for consistent results.

Product Features

- **Medium gloss floor polish** for professional use
- **Low gloss formulation** for reduced maintenance
- Provides **superior resistance to scuffing and traffic marks**
- Suitable for multiple floor types including thermoplastics
- Can be used as a **finishing coat on hard surfaces**
- Designed for consistent and durable floor protection

Product Benefits

Tel: 01626 355177
Email: info@aukhygiene.com

- **Reduces maintenance requirements by up to 50%**
- Maintains floor appearance in high-traffic environments
- Minimises visible wear and surface marking
- Supports efficient cleaning and maintenance routines
- Provides versatile use across different flooring materials
- Enhances long-term floor protection and presentation

Technical Characteristics

- Supplied in **5 litre containers**
- Suitable for vinyl, rubber, linoleum and thermoplastic floors
- Can be applied to terrazzo, timber and concrete as a finish
- Apply using standard polish applicators or mops
- Allow appropriate drying time between coats
- Store in a cool, dry environment and follow safety guidance

Applications

Diversey Carefree Satin and Care Floor Polish is suitable for commercial cleaning, healthcare, education, retail and facilities management environments where a **low to medium gloss finish** is preferred. It is particularly effective in high-traffic areas where resistance to scuffing and ease of maintenance are essential. Its versatility across multiple floor types makes it suitable for mixed-surface environments, while its low gloss finish helps maintain a consistent and professional appearance with reduced upkeep.
