Diversey Carefree Speed Stripper - 5L

Variant code: 03-130

Diversey Carefree Speed Stripper is a **high efficiency floor polish stripper** designed for the rapid removal of floor finishes in commercial and industrial environments. Part of the Diversey Carefree range, this product is developed to simplify floor maintenance by reducing labour time while maintaining effective stripping performance.

The formulation is a **no scrub, no rinse solution** suitable for use on **all resilient floors (excluding wood)**. It removes multiple layers of floor polish quickly, helping prepare surfaces for recoating with minimal disruption. Its advanced formulation can **reduce stripping time by up to 50%** compared to conventional polish strippers, making it suitable for high-demand environments where efficiency is critical.

The solution can be applied using a **kentucky mop or polish applicator**, and can be used **with or without a rotary floor machine** depending on site requirements. Supplied in a 5L format, it integrates easily into structured floor care programmes and supports consistent results across a wide range of applications.

Product Features

- **Floor polish stripper** for professional use
- **No scrub, no rinse formulation**
- Suitable for use on **all resilient floors (excluding wood)**
- Removes multiple layers of floor finish efficiently
- **Flexible application methods** (mop, applicator or machine)
- Designed for fast and effective floor preparation

Product Benefits

- **Reduces stripping time by up to 50%**
- Minimises labour requirements and operational downtime
- Simplifies floor maintenance processes
- Supports consistent surface preparation for recoating
- Improves efficiency in high-traffic

environments
- Offers adaptable use across different cleaning setups

Technical Characteristics

- Supplied in **5 litre containers**
- Suitable for resilient floor surfaces (excluding wood)
- Apply using **kentucky mop, applicator or machine**
- Can be used **with or without rotary floor equipment**
- **No rinse required** after application
- Follow manufacturer dilution and usage instructions

Applications

Diversey Carefree Speed Stripper is suitable for use in commercial cleaning, healthcare, education, retail and facilities management environments where resilient floors require periodic stripping and refurbishment. It is particularly effective in **high-traffic areas where downtime must be minimised**, enabling fast removal of old floor polish before reapplication. Its flexible application methods make it suitable for both manual and machine-assisted cleaning programmes.

Property	Value
Fragrance	Citrus
Dilution	Use Neat
pH	13.1
Area of Use	All resilient flooring excluding wood
CLP	corrosive
How to Use	Apply using a kentucky mop, polish applicator or rotary floor machine.
Chemical Colour	Red-brown
