Carex Sensitive Antibacterial Hand Soap - 250ml

Variant code: 10-143

Carex Sensitive Antibacterial Hand Soap is a gentle liquid hand wash designed to provide effective everyday hygiene while caring for sensitive skin. Developed using a trusted antibacterial formulation, this hand soap helps protect against germs and bacteria while supporting healthy skin during frequent hand washing.

The formula kills **99.9% of bacteria** and helps protect the skin's natural antibacterial defences for up to **2 hours after washing**. Designed for gentle cleansing, it effectively removes dirt and germs while remaining suitable for regular use by the whole family. Its sensitive skin formulation is both **vegan** and **dermatologically tested**, helping provide reassurance for everyday personal hygiene routines.

Supplied in a convenient **250ml bottle**, the soap is suitable for bathrooms, kitchens, workplaces and shared washroom environments where effective hand hygiene and skin care are important.
