Cimex Carpet Cleaning System Starter Kit - Inc Machine, Shampoo Brushes, 2x5L Cimex Chemical, Measuring Jug & Fill Bucket

Variant code: 16-CIMEXKIT

Cimex Carpet Cleaning System Starter Kit is a complete low-moisture carpet cleaning solution designed for fast, cost-effective maintenance cleaning of commercial carpets. Using advanced **encapsulation (encap) cleaning technology**, the system combines the renowned **Cimex 3 Brush Rotary Machine** with specialist polymer chemistry that surrounds and encapsulates dirt particles, allowing carpets to stay cleaner for longer while significantly reducing drying times. Ideal for routine cleaning during occupied hours, the system delivers productivity of up to **300 square metres per hour**.

Unlike traditional extraction machines, the Cimex Encap system operates without a pump or vacuum motor, making it exceptionally robust, reliable and easy to maintain. The low-moisture cleaning process leaves carpets dry in a fraction of the time required by conventional carpet extraction methods, allowing areas to return to service quickly. This starter kit includes everything required to begin professional carpet maintenance, including the Cimex rotary machine, three shampoo brushes, two 5-litre containers of Cimex Encap chemical, a filling bucket, measuring jug and instruction guide.

Designed for facilities with extensive carpeted areas, the Cimex Carpet Cleaning System provides a highly efficient solution for maintaining appearance, extending carpet life and reducing cleaning costs. Its advanced cleaning chemistry, simple operation and minimal environmental impact make it the ideal choice for in-house maintenance teams and professional cleaning contractors alike.

Product Features

- Complete low-moisture encapsulation carpet cleaning system
- Cleans up to approximately 300m² per hour

Tel: 01626 355177
Email: info@aukhygiene.com

- Advanced polymer encapsulation chemistry keeps carpets cleaner for longer
- Fast drying, low-moisture cleaning process
- No pump or vacuum motor for increased reliability and reduced maintenance
- Simple, user-friendly operation
- Low environmental impact cleaning system
- Complete starter kit supplied with machine, brushes and chemicals

Product Benefits

- **High productivity enables rapid cleaning of large carpeted areas**
- **Low-moisture system minimises drying times and reduces disruption**
- **Encapsulation technology helps carpets remain cleaner for longer**
- Robust design with no pump or vacuum motor reduces servicing requirements
- Cost-effective solution for regular maintenance cleaning
- Simple operation requires minimal operator training
- Ideal for routine term-time and daytime cleaning
- Complete package allows immediate deployment straight out of the box

Technical Characteristics

- Product Type: Low-Moisture Carpet Cleaning System
- Cleaning Method: Encapsulation (Encap) Carpet Cleaning
- Cleaning Productivity: Up to 300m² per Hour
- Drying System: Low-Moisture Fast Drying
- Machine Type: Cimex 3 Brush Rotary Machine
- Pump: None
- Vacuum Motor: None
- Cleaning Chemistry: Polymer Encapsulation
- Kit Includes:
    - Cimex 3 Brush Rotary Machine
    - 3 × Shampoo Brushes
    - 2 × 5L Cimex Encap Chemical
    - Filling Bucket
    - Measuring Jug
    - Instruction Guide

Applications
