Cleaning & Buffing Floor Pad - Red - 20"

Variant code: 03-S20R

The **Red Cleaning & Buffing Floor Pads** are professional floor maintenance pads designed for **routine cleaning, dry polishing and spray buffing**. Their red polishing grade is ideal for frequent use on relatively clean hard floors, helping remove **light surface dirt and scuff marks** while restoring the appearance and shine of suitable floor finishes. Available in **14 sizes ranging from 6" to 24"**, these pads offer a versatile solution for commercial floor care and maintenance.

Designed for use with **compatible rotary floor cleaning machines operating at speeds up to 600 RPM**, the red pads can be used **dry or with a suitable spray polishing product** to clean, remove scuff marks and restore shine. Their flexible construction helps maintain contact with slightly uneven floor surfaces, while the **double-sided design** allows both sides to be used without loss of cleaning efficiency. This makes them particularly suitable for regular maintenance where aggressive scrubbing or stripping is unnecessary.

The **Red Cleaning & Buffing Floor Pads** provide a practical solution for maintaining the appearance of polished and finished hard floors in busy commercial environments. The manufacturer's standard pad design incorporates a **push-out centre** to help prevent overheating during operation. After use, the pads can be brushed and rinsed with clean water before being hung to dry. **Supplied individually**, they are suitable for professional cleaning contractors, facilities management teams and routine floor maintenance programmes.

Product Features

- **Red cleaning and buffing floor pads** for routine floor maintenance
- Available in **14 sizes from 6" to 24"**
- Designed for **dry cleaning and spray buffing**
- Helps remove **light scuff marks and surface dirt**
- Suitable for **restoring and maintaining floor shine**
- Ideal for frequent use on **relatively clean hard floors**

- Compatible with suitable **rotary floor machines operating up to 600 RPM**
- **Double-sided construction** allows both sides of the pad to be used
- **Flexible pad design** helps maintain contact with slightly uneven floor surfaces
- Manufacturer's standard design features a **push-out centre** to help prevent overheating
- **Rinseable after use** for convenient cleaning and maintenance
- **Red colour coding** allows easy identification of the polishing grade
- **Supplied individually**

Product Benefits

- **Dry cleaning and spray buffing capability** helps remove scuff marks and restore shine to suitable hard floor finishes
- **Gentle polishing action** supports frequent floor maintenance without the aggressive abrasion associated with stripping pads
- **Double-sided construction** allows both sides of each pad to be used, helping extend its working life and maximise cleaning efficiency
- **Wide selection of diameters** provides options for different compatible floor cleaning machines
- **Dry-use capability** provides a convenient option for routine cleaning and polishing
- **Spray buffing compatibility** helps improve the appearance of floors showing light wear and scuff marks
- **Flexible construction** helps maintain effective contact across slightly uneven surfaces
- Suitable for use with appropriate standard-speed rotary floor machines
- **Rinseable design** allows accumulated dirt and polishing residue to be removed after use
- Suitable for **commercial cleaning and facilities maintenance programmes**

Technical Characteristics

- **Product Type:** Cleaning & Buffing Floor Pad
- **Pad Grade:** Cleaning and Polishing
- **Colour:** Red
