Cleaning Floor Pad- Blue - 20"

Variant code: 03-S20B

The **Blue Cleaning Floor Pads** are professional floor maintenance pads designed for **light cleaning, wet floor maintenance and spray burnishing**. Their blue cleaning grade provides a gentle cleaning action for removing light surface dirt and maintaining the appearance of suitable hard flooring. Available in **13 sizes ranging from 6" to 24"**, these pads provide a versatile solution for routine commercial floor cleaning and maintenance.

Designed for use with **compatible rotary floor cleaning machines operating at speeds up to 600 RPM**, the blue pads are suitable for regular maintenance where heavy-duty scrubbing or floor finish stripping is not required. Their flexible construction helps the pads follow slightly uneven floor surfaces, maintaining effective contact during cleaning. The **double-sided design** allows both sides to be used without loss of cleaning efficiency, helping maximise the working life of each pad.

The pads are suitable for **wet cleaning and spray burnishing applications**, making them a practical choice for maintaining floors in commercial and public environments. After use, the pads can be brushed and rinsed with clean water before being hung to dry. With a wide range of diameters available, the **Blue Cleaning Floor Pads** can be selected to suit appropriately sized floor cleaning equipment, supporting efficient and consistent maintenance across different floor areas.

Product Features

- **Blue cleaning floor pads** for light-duty floor maintenance
- Available in **13 sizes from 6" to 24"**
- Designed for **light cleaning and spray burnishing**
- Suitable for **wet floor cleaning applications**
- Helps remove **light surface dirt and everyday soiling**
- Compatible with suitable **rotary floor machines operating up to 600 RPM**
- **Double-sided construction** allows both sides of the pad to be used
- **Flexible pad design** helps maintain contact with slightly uneven floors

- Manufacturer's standard pad design incorporates an **85mm push-out centre hole** to help prevent overheating
- **Rinseable after use** for convenient cleaning and maintenance
- Suitable for **routine commercial floor cleaning programmes**
- **Blue colour coding** allows easy identification of the light cleaning grade

Product Benefits

- **Light cleaning action helps remove everyday surface dirt while maintaining the appearance of suitable hard flooring**
- **Suitable for spray burnishing, supporting routine floor appearance maintenance without aggressive stripping action**
- **Double-sided construction allows both sides of each pad to be used, helping extend its working life**
- **Wide selection of 13 diameters** provides options for different compatible floor cleaning machines
- **Flexible construction** helps maintain consistent contact across slightly uneven floor surfaces
- **Wet cleaning compatibility** supports routine maintenance with appropriate cleaning solutions
- **Up to 600 RPM compatibility** allows use with suitable standard-speed rotary floor machines
- **Rinseable design** makes it easier to remove accumulated dirt after cleaning
- **Blue colour coding** helps cleaning operatives select the appropriate pad for light maintenance tasks
- Suitable for **regular professional floor care** in commercial and public environments

Technical Characteristics

- **Product Type:** Cleaning Floor Pad
- **Pad Grade:** Light Cleaning
- **Colour:** Blue
- **Available Diameters:** 6", 10", 12", 13", 14", 15", 16", 17", 18", 19", 20", 21" and 24"
- **Minimum Diameter:** 6" (152.4mm)
- **Maximum Diameter:** 24" (609.6mm)
- **Machine Compatibility:** Compatible Rotary Floor Cleaning Machines
- **Maximum Operating Speed:** 600 RPM

- **Cleaning Method:** Wet Use
- **Primary Application:** Light Floor Cleaning
- **Additional Application:** Spray Burnishing
- **Double-Sided:** Yes
- **Centre Hole:** 85mm Push-Out Centre (Manufacturer's Standard Pad Specification; Verify for Individual Sizes)
- **Rinse After Use:** Yes
- **Recommended Maintenance:** Brush and Rinse with Clean Water, Then Hang to Dry
- **Available Size Options:** 13

Applications

The **Blue Cleaning Floor Pads** are designed for **light cleaning, wet floor maintenance and spray burnishing** in commercial and public environments, including **offices, schools, hospitals, hotels, retail premises, shopping centres and public buildings**. Their light cleaning grade makes them suitable for routine removal of surface dirt and general maintenance of compatible hard flooring where aggressive scrubbing or stripping is unnecessary. Available in **13 sizes from 6" to 24"**, the pads can be selected to suit appropriately sized rotary floor machines. For best results, use the appropriate cleaning method for the floor surface, follow the flooring manufacturer's recommendations and **brush, rinse and hang the pads to dry after use** to help maintain their cleaning performance.
