

Clear Compactor Sack –140L – 15Kg Rated – Case of 200

Variant code: 18-LD200C-2

Clear Compactor Sacks are durable **140 litre heavy-duty waste sacks** designed for high-volume waste collection and compactor waste management applications. Manufactured from strong polythene material, these sacks provide reliable waste containment and hygienic disposal performance for commercial, industrial and facilities management environments.

Featuring a generous **140 litre capacity** and a dependable **15kg load rating**, these compactor sacks are engineered to resist tearing, punctures and leaks during use. Their clear construction allows easy identification of contents, supporting waste segregation procedures, recycling management and security inspections where visibility is required. The strong heavy-duty design makes them suitable for handling general commercial waste and high-volume refuse applications.

Supplied in a practical **case of 200 sacks**, these clear compactor sacks provide a cost-effective and efficient bulk waste disposal solution for demanding environments requiring dependable waste handling consumables.

Product Features

- **Heavy-duty clear compactor sacks**
- **140 litre capacity**
- **15kg load rating**
- Strong puncture and tear-resistant construction
- Clear design for content visibility and waste segregation
- Suitable for compactor and high-volume waste applications
- Designed for hygienic waste containment
- Supplied in a **case of 200 sacks**

Product Benefits

- Provides reliable waste containment for demanding environments
- Supports hygienic and efficient waste disposal procedures
- Improves visibility for recycling and waste segregation

- Reduces risk of leaks, tears and sack failures
- Suitable for commercial and industrial waste handling
- Helps maintain clean and organised waste management systems
- Offers economical bulk supply for high-use facilities

Technical Characteristics

- **140L compactor sacks**
- **15kg maximum load capacity**
- Clear heavy-duty polythene construction
- Suitable for high-volume waste disposal applications
- Designed for commercial and industrial use
- Puncture and tear-resistant performance
- **Case quantity: 200 sacks**

Applications

Clear Compactor Sacks are ideal for warehouses, factories, commercial kitchens, hospitality venues, retail premises and industrial workplaces where reliable high-capacity waste disposal solutions are required. Their strong construction and clear finish make them particularly suitable for environments requiring efficient waste segregation, recycling visibility and dependable compactor waste management performance.
